**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
TO THE BOARD OF DIRECTORS OF UNION TOBACCO AND CIGARETTE INDUSTRIES
PUBLIC SHAREHOLDING COMPANY
AMMAN - JORDAN**

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Union Tobacco and Cigarette Industries (the "Company") and its subsidiaries (the "Group") as at 30 September 2018, comprising of the interim consolidated statement of financial position as at 30 September 2018 and the related interim consolidated statement of profit or loss, interim consolidated statement of other comprehensive income, interim consolidated statement of changes in equity and interim consolidated statement of cash flows for the nine-months period then ended and explanatory information. The Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard IAS 34 interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis of qualified conclusion

The Group recognized a gain of JD 653,248 from a sale of machinery and equipment during 2017 after receiving an amount of JD 1,775,000, which represents 50% of the total sale price. The machinery and equipment will remain in the Group's possession until the factory in Iraq is completed at which point the machinery and equipment will be shipped to the factory.

Qualified conclusion

Based on our review, except for the effect of the matter described in the basis of qualified conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Amman – Jordan

The attached notes from 1 to 11 form part of these interim condensed consolidated financial statements

1) GENERAL

Union Tobacco and Cigarette Industries (the "Company") was established as a public shareholding company on 19 July 1993, under registration number (232) with paid in capital of JD 15,083,657 divided into 15,083,657 shares at a par value of JD 1 per share.

The Company's objective is the production and packaging of tobacco, cigarette, toombak and all kinds of related printing works.

The interim condensed consolidated financial statements were approved by the Company's Board of Directors in their meeting held on 29 October 2018.

2) BASIS OF PREPARATION AND ACCOUNTING POLICIES

(2-1) BASIS OF PREPARATION -

The interim condensed consolidated financial statements for the nine-months period ended 30 September 2018 have been prepared in accordance with International Accounting Standard 34 (Interim Financial Reporting).

The interim condensed consolidated financial statements do not contain all information and disclosures required for the annual financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual report as of 31 December 2017. In addition, the results for the nine-months period ended 30 September 2018 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018.

(2-2) BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS -

The interim condensed consolidated financial statements comprise of the Company's financial statements and its subsidiaries (together the "Group").

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full upon consolidation.

(2-3) CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018.

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group had previously implemented the first phase of IFRS 9 as issued during 2009. The date of initial implementation of the first phase of IFRS 9 was 1 January 2011.

IFRS 9 requires the Group to record an allowance for expected credit losses for all debt instruments measured at amortized cost.

IFRS 9 (financial instruments) has eliminated the use of the incurred loss approach under IAS 39 (financial instrument: Recognition and measurement) by including a comprehensive model for the recognition and recording of forward looking expected credit loss, uses the revised hedge accounting framework, and the revised guidance on the classification and measurement requirements.

Impairment

The adoption of IFRS 9 (financial instruments) has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing the incurred loss approach with a forward-looking expected credit loss (ECL) approach.

For all debt instruments, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has no debt instruments at amortized cost; therefore, there was no material impact on the interim condensed consolidated financial statements from the adoption of IFRS 9.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The impact of adopting IFRS 15 was not material on the interim condensed financial statements and impacted its accounting policy for revenue recognition as detailed below:

(a) Sale of goods

The Group contracts with customers for the sale of goods generally include performance obligations. The Group has concluded that revenue from sale of goods should be recognised at the point in time when control of the asset is transferred to the customer generally on delivery of the goods.

Variable consideration

Some contracts for the sale of goods provide customers with a right of return and volume rebates. Prior to the adoption of IFRS 15, the Group recognised revenue from the sale of goods measured at the fair value of the consideration received or receivable, net of returns and volume rebates. If revenue could not be reliably measured, the Group deferred revenue recognition until the uncertainty was resolved.

Under IFRS 15, rights of return and volume rebates give rise to variable consideration. The variable consideration is estimated at contract inception and constrained until the associated uncertainty is subsequently resolved.

Rights of return

When a contract provides a customer with a right to return the goods within a specified period, the Group previously estimated expected returns using a probability-weighted average amount approach similar to the expected value method under IFRS 15.

Under IFRS 15, the consideration received from the customer is variable because the contract allows the customer to return the products. The Group applies the requirements in IFRS 15 on constraining estimates of variable consideration to determine the amount of variable consideration that can be included in the transaction price.

(b) Advances received from customers

Generally, the Group receives short-term advances from its customers. However, from time to time, the Group also receives long-term advances from customers. Prior to the adoption of IFRS 15, the Group presented these advances as deferred revenue in the consolidated statement of financial position.

Upon the adoption of IFRS 15, for short-term advances, the Group used the practical expedient. As such, the Group will not adjust the promised amount of the consideration for the effects of a financing component in contracts, where the Group expects, at contract inception, that the period between the time the customer pays for the good or service and when the Group transfers that promised good or service to the customer will be one year or less. If the period between the time the customer pays for the good or service and when the Group transfers that promised good or service to the customer is more than one year, the Group shall adjust the promised amount of consideration for the effects of the time value of money.

(c) Other adjustments:

In addition to the adjustments described above, upon adoption of IFRS 15, other items of the primary financial statements such as deferred taxes, assets held for sale and liabilities associated with them, profit or loss after tax for the period from discontinued operations, investments in associates and joint ventures, income tax expense, and retained earnings, were adjusted as necessary. Furthermore exchange differences on translation of foreign operations were also translated.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration.

This Interpretation does not have any impact on the Group's interim condensed consolidated financial statements.

Amendments to IAS 40 Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled. On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

Amendments to IAS 28 Investments in Associates and Joint Ventures - measuring investees at fair value through profit or loss.

The amendments clarify that an entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements

UNION TOBACCO AND CIGARETTE INDUSTRIES - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
30 SEPTEMBER 2018 (UNAUDITED)

(3) STATUTORY RESERVE

The Group has not deducted legal reserves as required by the Jordanian Companies Law as these are interim condensed consolidated financial statements.

(4) INCOME TAX

Income tax provisions for the nine months period ended 30 September 2018 and 2017 have been calculated in accordance with the Income Tax Law No. (34) for 2014.

The Company reached a final settlement with the Income and Sales Tax Department up to the year 2012. The Income and Sales Tax Department reviewed the accounting records of the Company and its subsidiaries until the end of 2015 without issuing a final clearance yet.

The Income and Sales Tax Department did not review the Group's accounting records for the years 2016 and 2017 up to the date of these interim condensed consolidated financial statements.

(5) RELATED PARTIES

The interim condensed consolidated financial statements include the financial statements of the following subsidiaries:
