**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
TO THE CHAIRMAN AND BOARD OF DIRECTORS OF  
AFAQ FOR ENERGY PUBLIC SHAREHOLDING COMPANY  
AMMAN - JORDAN**

## **Introduction**

We have reviewed the accompanying interim condensed consolidated financial statements of Afaq for Energy (a Public Shareholding Company) (“the Company”) and its subsidiaries (“the Group”) as at 30 September 2020, comprising the interim consolidated statement of financial position as at 30 September 2020 and the interim consolidated statements of comprehensive income and the interim consolidated statements of changes in equity and the interim consolidated statements of cash flows for the nine-month period then ended and explanatory notes. Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

## **Scope of Review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

## **Emphasis of matter**

We draw attention to note (14) to the interim condensed consolidated financial statements, which disclose the impact of the coronavirus pandemic on the Group’s operating results for the period ended 30 September 2020. This matter does not modify our conclusion on these interim condensed consolidated financial statements

Amman – Jordan  
28 October 2020

**(1) GENERAL INFORMATION**

Afaq for Energy was established as a public shareholding company on 5 August 2008 with an authorized and paid in capital of JD 5,000,000, divided into 5,000,000 shares with a par value of JD 1 per share. The company has increased its capital several times over the years to become JD 110,000,000 divided into 110,000,000 shares with a par value of JD 1 per share.

The main objective of the Company is to invest in the capital of the companies that operate in the energy sector.

Jordan Modern Oil and Fuel Services Company (subsidiary) signed an agreement with the Ministry of Energy and Natural Resources on 20 November 2012 in which the company got the rights of distributing and marketing the oil products in addition to any other oil services authorized in Jordan for a period of ten years from the commercial operations starting date. The commercial operations has started in May 2013.

The headquarter of the group is located in Queen Alia Airport road, Amman - Hashemite Kingdome of Jordan.

**(2) BASIS OF PREPARATION INTERIM FINANCIAL STATEMENTS**

**(2.1) Basis of preparation**

The interim condensed consolidated financial statements for the nine months period ended 30 September 2020 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual report as at 31 December 2019. In addition, results of the nine months period ended 30 September 2020 are not necessarily indicative of the expected results for the financial year ending 31 December 2020.

**(2.2) Going concern**

The interim condensed consolidated financial statements have been prepared using the going concern assumption. The current liabilities exceeded the current assets by JD 136 million as at 30 September 2020 (31 December 2019: JD 107 million), in order to solve this issue the management has taken various corrective actions in form of loans restructuring and increase in credit facilities limits, in addition, the management has prepared a cashflow forecast to monitor the Group's financing requirements in the next 12 months. Based on the above, management is confident about the group's ability to continue in its activities and to meet its liabilities.

### **(2.3) Changes in accounting policies**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019, except for the adoption of new amendment effective as at 1 January 2020:

#### **Amendments to IFRS 3: Definition of a Business**

The IASB issued amendments to the definition of a business in IFRS 3 Business Combinations to help entities determine whether an acquired set of activities and assets is a business or not. They clarify the minimum requirements for a business, remove the assessment of whether market participants are capable of replacing any missing elements, add guidance to help entities assess whether an acquired process is substantive, narrow the definitions of a business and of outputs, and introduce an optional fair value concentration test.

The amendments are applied to transactions that are either business combinations or asset acquisitions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2020. Consequently, the Group did not have to revisit such transactions that occurred in prior periods. Earlier application is permitted and must be disclosed.

Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group was not be affected by these amendments on the date of transition.

#### **Interest Rate Benchmark Reform Amendments to IFRS 9 and IFRS 7**

Interest Rate Benchmark Reform Amendments to IFRS 9 and IFRS 7 includes a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. As a result of interest rate benchmark reform, there may be uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument during the period before the replacement of an existing interest rate benchmark with an alternative risk-free interest rate (an RFR). This may lead to uncertainty whether a forecast transaction is highly probable and whether prospectively the hedging relationship is expected to be highly effective.

The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark with an alternative risk-free interest rate (an "RFR").

**AFAQ FOR ENERGY  
(PUBLIC SHAREHOLDING COMPANY)  
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
30 SEPTEMBER 2020**

---

The effective date of the amendments was for annual periods beginning on or after 1 January 2020, with early application permitted. The requirements must be applied retrospectively. However, any hedge relationships that have previously been de-designated cannot be reinstated upon application, nor can any hedge relationships be designated with the benefit of hindsight.

With phase one completed, the IASB is now shifting its focus to consider those issues that could affect financial reporting when an existing interest rate benchmark is replaced with an RFR. This is referred to as phase two of the IASB's project.

The Company was not be affected by these amendments on the date of transition and concluded that the uncertainty arising from IBOR reform is did not affect its hedge relationships to the extent that the hedge relationships need to be discontinued.

**(2.3) Basis of consolidation of financial statements**

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries where the Company holds control over the subsidiaries. The control exists when the Company controls the subsidiaries significant and relevant activities and is exposed, or has rights, to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries. All balances, transactions, income, and expenses between the Company and subsidiaries are eliminated. The subsidiaries included in the interim condensed consolidated financial statements are as follows:

Name of the company	Country of incorporation	Ownership percentage	Main activity
Jordan modern oil and fuel services company	Jordan	100%	Fuel distribution
Jordan modern importing and exporting company (Free Zone)	Jordan	100%	Motor oil and lubricants distribution
Jordan modern food trading company	Jordan	100%	Trading
Aqaba bulk chemicals company	Jordan	55%	Logistic services

**3) LEASES**

Set out below, are the carrying amounts of the Company's, right-of-use assets and lease liabilities and the movements during the year ended 30, September 2020:

	Right of use assets JD	Lease Liabilities JD
<b>At 1 January 2019</b>	12,599,888	12,364,393
Depreciation	(683,047)	-
Finance costs	-	770,021
Payments	-	(1,299,397)

**(14) SIGNIFICANT EVENTS OF THE OUTBREAK OF CORONAVIRUS (COVID-19)**

As a result of coronavirus pandemic on the global economy and different businesses and the accompanied constraints imposed by the Jordanian government and surrounding countries, various products markets; supply chains and international oil prices were affected by that. Accordingly, the core operating activities of the Group has been disrupted with these procedures and events, especially that, the Group primarily depends on selling fuels products.

The prime ministry of Jordan passed the following legislative orders during the period to minimize the effect of the pandemic on companies, individuals and public health, these had directly or indirectly affected the Group's operations and performance.

1. Defense Order No.1 suspends certain provisions for Social Security Law No. 1 of 2014 and its amendments and the regulations applied by the Social Security Corporation. This including suspending the application of old-age insurance for the months of March, April and May of 2020 for those subject to the Jordanian Labor Law in the private sector.
2. Defense Order No.2 involves mandatory curfew to be imposed on people all over the country from Saturday 7:00 am, 21 March 2020 until 10 May 2020.
3. Defense Order No.6 determines the wages of workers in private sector and any other organization subject to the Jordanian Labor Law.

Other orders were issued by various governmental bodies to assist the continuity of different economic sectors and reduce the financial burden on them. Examples include the following:

1. The Central Bank of Jordan's order that compel all Jordanian banks to postpone loan installments due on companies and individuals without imposing any penalties or financial burdens on them.
2. The Central Bank of Jordan's order to lower interest rates on credit facilities.
3. The Central Bank of Jordan's order to lend credit facilities to the public and private sectors at low interest rates to finance their operations.
4. The Central Bank of Jordan not to enlist clients who had bounced cheques on the blacklist or charge them with commission for the period from 18 March 2020 to 30 June 2020 and give them 3 months grace period of to settle their dues.

The following is a summary of the overall impact from the above orders on the Group's activities:

- The Governmental lockdown procedures during the period from 21 of March 2020 to 10 June 2020 resulted in decreasing the Companies sales by JD 130,437,362 equivalent to 32% compared to the same period of the previous year.
- The pandemic resulted in drop in the global oil prices, consequently the local prices were decreased between 12.9% to 16.2% on 1 April 2020, and between 9% to 15% on 1 May 2020 compared to the previous month. Accordingly, the Group incurred a valuation loss on fuel stock by JD 14,034,067 during the period from 30 June 2020 to 30 June 2020.
- The Central Bank's order not to enlist clients who had bounced cheques on the blacklist or charge them with commission resulted in a decrease in the Group's collections during the period from 18 March 2020 till 30 June 2020 and increased the expected credit losses by JD 926,240.
- The Central Bank of Jordan order for Jordanian banks to postpone due loan instalments for the months of March, April and May Of 2020, resulted in deferring JD 5,552,387 of the Group's due loan installments until the end of the loans' maturity.
- The Ministry of Finance deferred JD 46 million that represent taxes due from the Group on the months of March, April and May by 6 months in order to reduce financial burden on the them.
- The Group did not apply Defense Order No. 6, which determine and reduce the wages for workers in the private sector for the months of April and May 2020, and it paid the full salaries to all employees.
- The Group obtained rents holiday to certain lands and warehouses during the lockdown period for the months of April and May 2020 amounting to JD 32,127.
- The banks have reduced their interest on facilities granted for the group by 1.5%.

The management of the Group believes that the impact of the Coronavirus pandemic on the operations would be temporary. Also the management applied all necessary actions to ensure public safety and the continuity of the operations.
