

THE JORDANIAN PHARMACEUTICAL MANUFACTURING CO.

PUBLIC SHAREHOLDING COMPANY

CONSOLIDATED FINANCIAL STATEMENTS

31 DECEMBER 2023

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of The Jordanian Pharmaceutical Manufacturing Company

Public Shareholding Company

Amman – Jordan

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of The Jordanian Pharmaceutical Manufacturing Company - Public Shareholding Company (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects the financial position of the Group as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards, are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Jordan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

Without qualifying our opinion, the consolidated financial statements as of 31 December 2023 contain investments in associate companies by the amount of JD 3,640,067, the management of these associate companies did not provide to the Group with its 2023 operation results required for equity method accounting, where the Group has relied on the last audited financial statements received for the 2022.

Without qualifying our opinion, the Group incurred losses by the amount of JD 2,851,044 during the year ended 31 December 2023 and the accumulated losses reached to JD 36,058,854 as of 31 December 2023. The Groups' ability to realize its assets and continue its operations is subject to its ability to achieve revenues from operations and obtain required financing, if needed, to settle its commitments when they come due, the accompanying consolidated financial statements are prepared on going concern basis.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

1) Revenue Recognition	
Disclosures that relate to the revenue recognition are included in Note (20) to the consolidated financial statements. Disclosures that relate to the accounting policies of revenue recognition are included in Note (2-3) to the consolidated financial statements.	
Key audit matter	How the key audit matter was addressed in the audit
The Group focuses on revenue targets as a key performance measure which may create an incentive for revenue to be recognized before delivering the goods and may result in overstating revenues.	<p>Our audit procedures included evaluating the Group's revenue recognition accounting policies in accordance with IFRS 15 "Revenue from contracts with customers". We tested the Group's controls over revenue recognition and key controls in the revenue cycle. We also selected a representative sample and tested revenue cutoff date to, assess whether the revenue was recognized in the correct period.</p> <p>We have also performed detailed analytical procedures for the gross margin on a monthly basis. We also selected and tested a representative sample of journal entries.</p>

2) Existence and valuation of inventories

Disclosures that relate to inventories are included in Note (10) to the consolidated financial statements. Disclosures that relate to the accounting policies of inventories are included in Note (2-3) to the consolidated financial statements.

Key audit matter

At 31 December 2023, total inventories balance amounted to JD 6,621,763 representing 15.6% of total assets of the Group. These inventories mainly consist of raw materials and finished goods located in the Group's warehouses.

The assessment of revaluation of inventories to net realizable value is mainly based on management estimates.

How the key audit matter was addressed in the audit

Our audit procedures included testing the Group's controls around completeness and existence of inventories and key controls of the inventory cycle. In addition, our audit procedures included observation of the stock counts held at the Group's warehouses. Also, we selected a sample of inventories issuances and receipts before and after the year end to assess whether the inventory was recorded in the correct period. We also tested the basis for inventory obsolescence in line with management estimates. In doing so, we tested the ageing profile of inventory, the process for identifying obsolete and slow-moving items in inventory and historical loss rates.

Other Information included in the Group's 2023 annual report

Other information consists of the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period, and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonable be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

The Group maintains proper books of accounts and the accompanying consolidated financial statements are in agreement therewith. We recommend the general assembly to approve these consolidated financial statements.

The partner in charge of the audit resulting in this auditor's report was Ahmed Mustafa Ramadan; license number 942.

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

(1) GENERAL

The Jordanian Pharmaceutical Manufacturing Company (the "Company") was established on 27 January 2004 as a Public Shareholding Company, as a result of the merger between Al Razi for Pharmaceutical Manufacturing a public shareholding company and the Jordanian Company for the Production of Medicines and Medical Equipment a limited liability company, under registration number 347 with an authorized capital and paid in capital of JD 25,312,500 divided into 25,312,500 shares at par value of JD1 per share.

The general assembly of The Jordanian Pharmaceutical Production Company resolved in its extra ordinary meeting held on 29 November 2021 to increase the capital of the company from 25,312,500 share/JD to 69,756,944 share/JD, by allocating the increased shares (44,444,444 shares) to some shareholders, with issuance discount of 0.73 piasters per share, and by the value of JD 12,000,000. The legal procedures were completed on 11 January 2022.

The head office of the Company is located in Amman - The Hashemite Kingdom of Jordan.

The Group's main objectives are the production of medical, chemical and pharmaceutical products.

The consolidated financial statements were approved by the Board of Directors on 26 March 2024.

INVESTORS WITH SIGNIFICANT INFLUENCE ON THE GROUP:

Jordan Islamic Bank and Rimco for Investment Company owns 88.8% and 4.6% of the Company's issued shares, respectively.

(2-1) BASIS OF PREPARATION

The consolidated financial statements have been prepared on a historical cost basis, except for the financial assets at fair value through other comprehensive income which have been measured at fair value as of the date of the consolidated financial statements.

The consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standard Board ("the Board").

The consolidated financial statements are presented in Jordanian Dinars which is the Company's functional currency.

(2-2) BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries (the "Group") as at 31 December 2023. The subsidiaries that are included in the consolidated financial statements are as follow:

Company Name	Capital (JD)	Main activities	Country of incorporation	Ownership percentage 2023	Ownership percentage 2022
Dellas for Natural Products Co.	150,000	Pharmaceutical industries	Jordan	93.33%	93.33%
Swagh for Pharmaceutical Manufacturing Co.	150,000	Pharmaceutical industries	Jordan	93.33%	93.33%
Aragen for Technical Organic Co.	1,400,000	Reagent industries	Jordan	100%	100%
Aragen for Technical Organic Co. (Free-Zone)	30,000	Pharmaceutical industries	Jordan	100%	100%
Al Maklafa for Import and Export Co.	10,000	Pharmaceutical marketing	Jordan	51%	51%

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

The control exists when the Group controls the subsidiaries' significant and relevant activities, and is exposed, or has the rights, to variable returns from its involvement with the subsidiaries, and has the ability to affect those returns. Control over the subsidiaries is exercised when the following factors exist:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

When the Group owns less than a majority of the voting rights in an investee, in this case, the Group considers all factors and circumstances to determine whether it has control over the investee, which include the following:

- Contractual agreements with shareholders that have voting rights in the investee.
- Rights resulting from other contractual arrangements.
- The Group's current and future voting rights in the investee.

The Group reassesses its control over the investee when circumstances and factors exist that lead to the change in one or more of the three factors listed above.

Subsidiaries are fully consolidated from the date of acquisition being the date on which the Group gains control, and continues to do so until the date when such control ceases. The subsidiaries revenues and expenses are consolidated in the consolidated statement of comprehensive income from the date the Group gains control over the subsidiaries until that control ceases.

Profits, losses, and all other comprehensive income items are attributed to the shareholders' equity of the parent company, and to non-controlling interest, even if this leads to a deficit balance. If need arises, the subsidiaries' financial statements are adjusted accordingly to comply with the Group's accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interest
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in the statement of profit or loss and other comprehensive income
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

(3-1) CHANGES IN ACCOUNTING POLICES

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended 31 December 2022, except for the adoption of new standards effective as of 1 January 2023:

IFRS 17 Insurance Contracts

IFRS 17 provides a comprehensive model for insurance contracts covering the recognition and measurement and presentation and disclosure of insurance contracts and replaces IFRS 4 - Insurance Contracts. The standard applies to all types of insurance contracts (i.e. life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. The standard general model is supplemented by the variable fee approach and the premium allocation approach.

The amendments had no impact on the group's consolidated financial statements

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments had no impact on the group's consolidated financial statements

Definition of Accounting Estimates - Amendments to IAS 8

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'Accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the group's consolidated financial statements

Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments to IAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities.

The amendments had no impact on the group's consolidated financial statements

(3-2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and any impairment value. When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included in the consolidated statement of profit or loss.

Depreciation (except for lands) is computed on a straight-line basis over the estimated useful lives of assets at the following annual rates:

	<u>%</u>
Buildings	2-4
Machinery and equipment	5-10
Tools and equipment	10-25
Vehicles	10
Furniture and fixtures	10

When the carrying values exceed the estimated recoverable amounts of the property, plant and equipment, the assets are written down to their recoverable amounts of the property, plant and equipment, and the impairment is recorded in the consolidated statement of profit or loss.

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected Lettern of economic benefits from items of property, plant and equipment.

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

Intangible assets

The measurement of intangible assets at acquisition by cost or fair value if resulting from the acquisition of subsidiaries.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite intangible assets are amortized over their useful lives and recorded in the consolidated statement of profit and loss. Indefinite intangible assets are tested for impairment on an annual basis and recorded in the consolidated statement of profit and loss.

Internally generated intangibles from the operations of the group are not capitalised and the related expenditure is reflected in the consolidated statement of profit or loss in the period in which the expenditure is incurred.

Intangible assets are reviewed for indications of impairment on the date of the consolidated financial statements. In addition, the useful live of these assets are reviewed were the adjustments are made on the subsequent years.

Intangible assets are amortized over the expected useful life using the following annual ratios:

	%
Bio-equivalent studies	Indefinite useful life
Patent	Indefinite useful life
Medicine registration	20

Investments in associates

Associates are entities in which the Group has significant influence and which is neither a subsidiary nor a joint venture. The Group's investments in its associates are accounted for using the equity method.

The investments in associates are carried in the consolidated statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment account in associate company and is not amortized. The consolidated statement of profit or loss reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes and discloses this, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associates.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are recorded at fair value when purchased plus acquisition costs and subsequently measured at fair value. Changes in fair value are reported as a separate component in the consolidated statement of comprehensive income and in the consolidated statement of equity including the change in fair value resulting from conversion differences of non-cash items of assets at foreign currencies. In case of sale of such assets or part of it, the gain or loss is recorded at the consolidated statement of comprehensive income and in the consolidated statement of changes in equity and the valuation reserve balance for sold assets will be transferred directly to retained earnings not through the consolidated statement of profit or loss.

These assets are not subject to impairment testing. Dividends are recognized in the consolidated statement of profit or loss.

Accounts receivable

Trade receivables are measured at the transaction price determined under IFRS 15. The Group recognises an allowance for expected credit losses (ECLs) for trade receivables. The Group applies a simplified approach in calculating ECLs. The Group recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Inventories

Inventories are valued at the lower of cost and net realizable value.

Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost is calculated as follows:

Raw materials: purchase cost is determined on the weighted average basis.

Finished goods and work in progress: cost of direct materials and a proportion of manufacturing overheads using is determined on the weighted average basis.

Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks with original maturities of three months or less with no risk of change in their value.

For the purpose of the preparation of consolidated statement of cash flows, cash and cash equivalents consists of cash and short-term deposits are defined above, net of outstanding bank overdraft and restricted cash.

Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements, the Group determines, whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level of input that is considered essential to the fair value measurement as a whole) at the end of each reporting period.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Loans

After initial recognition, loans are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in consolidated statement of profit or loss when the liabilities are derecognised as well as through effective interest amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest. The effective interest amortisation is included in finance costs in the consolidated statement of profit and loss.

Accounts payables

Liabilities are recognized for amounts to be paid in the future for services or goods received whether billed by the supplier or not.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

Income tax

Current income tax is calculated in accordance with the Income Tax Laws in Jordan and the countries where the subsidiaries operate.

Tax expense comprises current tax and deferred taxes.

Current tax is calculated based on taxable profits, which may differ from accounting profits appearing in the consolidated financial statements. Accounting profits may include non-taxable profits or expenses which may not be tax deductible in the current but in subsequent applicable years or taxable accumulated losses or non taxable nor deductible items.

Deferred income tax is provided using the liability method on temporary differences at the consolidated financial statements date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax is measured at the tax rates that are expected to apply to the year when the tax liability is settled or the tax asset is realized.

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

The carrying amount of deferred income tax assets is reviewed at each consolidated financial statement date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Foreign currencies

The consolidated financial statements are presented in Jordanian Dinars, which is the parent's functional and presentation currency. Each subsidiary determines its own functional currency.

Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date transaction. Monetary assets and liabilities dominated in foreign currency are retranslated at the functional currency rate of exchange ruling at the statement of financial position date. Profit or loss resulting from transactions in foreign currencies are recorded in the consolidated statement of profit and loss.

Assets and liabilities of subsidiaries that have functional currencies different from the presentation currency of the Parent are translated at the rate of exchange ruling at the consolidated statement of financial position date. Revenues and expenses of those subsidiaries are translated using the average exchange rate for the year. All resulting exchange differences are recorded as a separate component of equity.

Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and the Group intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

Revenue

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts provide customers with a right of return. The rights of return give rise to variable consideration.

Rights of return

Certain contracts provide a customer with a right to return the goods within a specified period. The Group uses the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in IFRS 15 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Group recognizes a refund liability.

Refund liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period. Refer to above accounting policy on variable consideration.

Interest income is recognized using the effective interest rate method

Other revenues are recognized on the accrual basis.

(4) SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of financial assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the revenues and expenses and the provisions. In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required in the future. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

Judgments, estimates and assumptions in the consolidated financial statements are detailed below:

- The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss Letters (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the pharmaceuticals sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

- Income tax expense is calculated and charged for the year in accordance with laws and regulation and IAS.
- Certain contracts for the sale of goods include a right of return that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Group determined that the expected value method is the appropriate method to use in estimating the variable consideration for the sale of goods with rights of return, given the large number of customer contracts that have similar characteristics.

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

(5) RIGHT OF USE ASSETS

The Group entered into financing agreement with Jordan Islamic Bank, where the group sold a property (Al Razi Industrial complex located in Um Al Amad) to the bank and leased back the property to re-own after 10 years, the annual lease yield rate is 5% with the option to re-own the property if the Group pays all the commitments of the contract early. On 30 June 2013 the contract was terminated and new contract was signed which extended the period to (20) years.

(29) RISK MANAGEMENT

- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flow of a financial instrument will fluctuate because of changes in market interest rate. The Group's exposed to interest rate risk on its financial assets and liability that carry interest such as Deposits Overdraft and Murabaha .

The sensitivity of the consolidated statement of profit or loss is the effect of the assumed changes in interest rates on the Group's profit for one year, based on the floating rate financial assets and financial liabilities held at 31 December 2023 and 2022.

Credit risk -

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The group is exposed to credit risk through its operational activities (accounts receivable) and financing activities (Deposits at banks) and other financial instruments included in the consolidated statement of financial position.

The Group seeks to limit its credit risk with respect to customers by monitoring outstanding receivables and with respect to banks by only dealing with reputable banks.

The group sells its products to a large number of customers, and this represents the largest 10 customers with 45% of the receivables as of December 31, 2023 (2022: the largest 10 customers with 47%.)

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

Liquidity risk -

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due.

The Group limits its liquidity risk by insuring bank facilities are available.

The table below summarizes the maturities of the Group's (undiscounted) financial liabilities as at 31 December, based on contractual payment dates and current market interest rates.

	Upon request	Less than 3 months	3 to 12 months	1 to 5 years	More than 5 years	Total
31 December 2023		JD	JD	JD	JD	JD
Lease Liability	128,272	219,789	659,367	3,516,624	3,956,202	8,480,254

Total	75,813	3,615,865	3,425,395	18,516,055	18,330,942	43,964,070

Foreign currency risk-

The following table shows the Group's exposure to currency risk as on December 31 as a result of its financial assets and liabilities.

The table shows the effect of a reasonable possible change in the Jordanian dinar exchange rate against the following foreign currencies on the consolidated statement of profits or losses and the consolidated other comprehensive income statement, with all other variables affecting remaining constant.

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
31 DECEMBER 2023

	Change in the currency exchange rate against the Jordanian dinar	The effect on the profit for the year Jordanian dinar	Impact on the consolidated statement of comprehensive income and equity
2023-	(%)	JD	JD
The currency			
Tunisian dinar	10%	-	(31,941)
Eritrean nakfa	10%	(364,007)	-
Algerian dinar	10%	(1,973)	-
2022-			
The currency			
Tunisian dinar	10%	-	(31,941)
Eritrean nakfa	10%	(300,534)	-
Algerian dinar	10%	(1,973)	-

In the event that there is a negative change in the indicator, the effect is equal to the change above, while reversing the signal.

(30) fair values

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for financial assets.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e, as prices) or indirectly (i.e, derived from prices). This category includes instrument evaluated based on: Prices quoted in active markets for similar instruments or through the use of valuation model that includes inputs that can be traced to markets, these inputs could be defended directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data.

A- Financial assets and liabilities that are measured at fair value:

	Book value	Level 1	Level 2	Level 3
	JD	JD	JD	JD
As at 31 December 2023				
Financial assets at fair value through other comprehensive income	319,419	-	-	319,419
As at 31 December 2022				
Financial assets at fair value through other comprehensive income	319,419	-	-	319,419

THE JORDANIAN PHARMACEUTICAL MANUFACTURING COMPANY - PUBLIC SHAREHOLDING COMPANY
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 31 DECEMBER 2023

B- Financial assets and liabilities that are not measured at fair value:

	<u>As at 31 December 2023</u>	<u>As at 31 December 2022</u>
	JD	JD
Book value		
Cash and bank balances	615,769	2,608,016
Due from related parties	1,182,968	1,182,968
Accounts receivable	13,616,143	17,046,536
Letters of credit under collection	-	492,905
Checks under collection	664,855	622,688
Lease liabilities	6,624,907	7,040,073
Murabaha financing	22,254,436	22,332,468
Notes payables	5,089,268	6,056,544
Due to related parties	986,190	1,242,448
Accounts payable	2,446,877	2,799,091

The management believes that the book value of financial assets and liabilities are not materially different from its fair value.

(31) SEGMENT INFORMATION

	<u>Inside Jordan</u>	<u>Outside Jordan</u>	<u>Total</u>
	JD	JD	JD
<u>Other information:</u>			
Depreciation and amortization	(771,553)	-	(771,553)
Finance costs	(1,319,326)	-	(1,319,326)
The group share from investment in associates	-	1,256,674	1,256,674

Assets and liabilities are allocated according to geographical locations as follows:

	<u>Inside Jordan</u>	<u>Outside Jordan</u>	<u>Total</u>
	JD	JD	JD
<u>As at 31 December 2022</u>			
Total assets	34,934,623	12,907,959	47,842,582
Total liabilities	44,008,165	1,552,867	45,561,032

(32) CONTINGENT LIABILITY

On the date of the consolidated financial statements, the Group has a potential liability:

	<u>2023</u>	<u>2022</u>
	JD	JD
<u>Contingent Liability:</u>		
Letters of credit	-	223,043
Bank guarantees	2,649,137	3,361,822
Bills of collection	146,409	-

Associate companies contingent liability:

The financial statements of The Jordanian Algerian Pharmaceutical Manufacturing Company (49% owned associate company) contain overdraft account issued from The Housing Bank Algeria by the amount of DZD 184.8 million as of 31 December 2023 against 100% guarantee issued from The Jordanian Pharmaceutical Manufacturing Company.

(33) LAWSUITS HELD AGAINST THE COMPANY

There are cases filed against the company for an amount of JD 587,348 as on 31 December 2023, and this is within the normal activity of the company, and in the discretion of the management and its legal advisor, the company will not have substantial obligations in response to these cases.

(34) STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards and interpretations that are issued but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Company intends to adopt these standards when they become effective.

Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2021, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify: what is meant by a right to defer settlement, the right to defer must exist at the end of the reporting period, that classification is unaffected by the likelihood, that an entity will exercise its deferral right, and that only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024 and must be applied retrospectively.

Amendments to IFRS 16: Lease Liability in a Sale and Leaseback

In September 2022, the IASB issued amendments to IFRS 16 to specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024.

Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7

In May 2023, the IASB issued amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024 and must be applied retrospectively.

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture

The amendments address the conflict between IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that the gain or loss resulting from the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture, is recognised in full. Any gain or loss resulting from the sale or contribution of assets that do not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture.

The IASB has deferred the effective date of these amendments indefinitely, but an entity that early adopts the amendments must apply them prospectively.
