Chairman's Message

Mr. Samer Tawfiq Fakhouri
Chairman of the Board of Directors

Dear fellow shareholders,

It gives me great pleasure to present you with EICO's annual report for the year 2016. This report comes at a very special time as it marks the company's 25th anniversary.

Allow me first to take you through a brief recap of the company's history and achievements and how the first quarter century since its establishment has positioned EICO to take on the challenges and opportunities ahead.

As you are aware, Eqbal Investment Co (Known as International Tobacco and Cigarette Company up until 2008) was founded in 1992 as a small cigarette manufacturer with an initial capital of JOD 5M. The company started its operations in October of 1994 producing generic brands it owned along with international brands for the local market (under license) for a duration of five years with Rothmans International and a subsequent ten years with Philip Morris International. These strategic relationships contributed to elevating the company's experience and know-how in

different aspects related to production, procurement, quality control as well as sales & marketing.

In the early 2000s the cigarette business began to face major challenges with the imposition of higher taxes and the influx of illicit products causing serious damage to the market. Faced with these challenges, management took the initiative to seek new opportunities in order to diversify and reduce its exposure to the disrupted cigarette business in Jordan. In 2006, the opportunity presented itself when management learned that a small flavored molasses company based in the UAE (known as Al Fakher) was up for sale. A swift due diligence process was conducted and Al Fakher was acquired for USD 11M in June of 2006 with a clear mission in mind: **"TO TRANSFORM THE SHISHA EXPERIENCE FROM A MIDDLE EASTERN TRADITION TO A UNIVERSAL PHENOMENON"**.

Given the vast experience gained, management was able to elevate Al Fakher from a single small workshop to a few cutting-edge facilities rivaling the best in the world in automation, cleanliness, and organization. As a result, Al Fakher today is the world's leading shisha tobacco company by volume, revenue and profit with its products reaching more than 125 countries around the world.

This success did not go unnoticed and has led to the recent inclusion of EICO in the MSCI-FRONTIER MARKETS attracting International investors to acquiring significant positions in the company.

While we are mindful and proud of our achievements, we are working diligently to reach further heights. As our company and the industry overall continue to grow so will the complexity of the challenges we face such as keeping up with the ever-increasing regulatory constraints in different markets, the entry of multinational competition, and managing the

rapidly expanding sales and distribution network. With that in mind the next couple of years will be characterized with significant investments in human capital, geographic expansion, compliance & public affairs, as well as further strengthening the positioning of our brand.

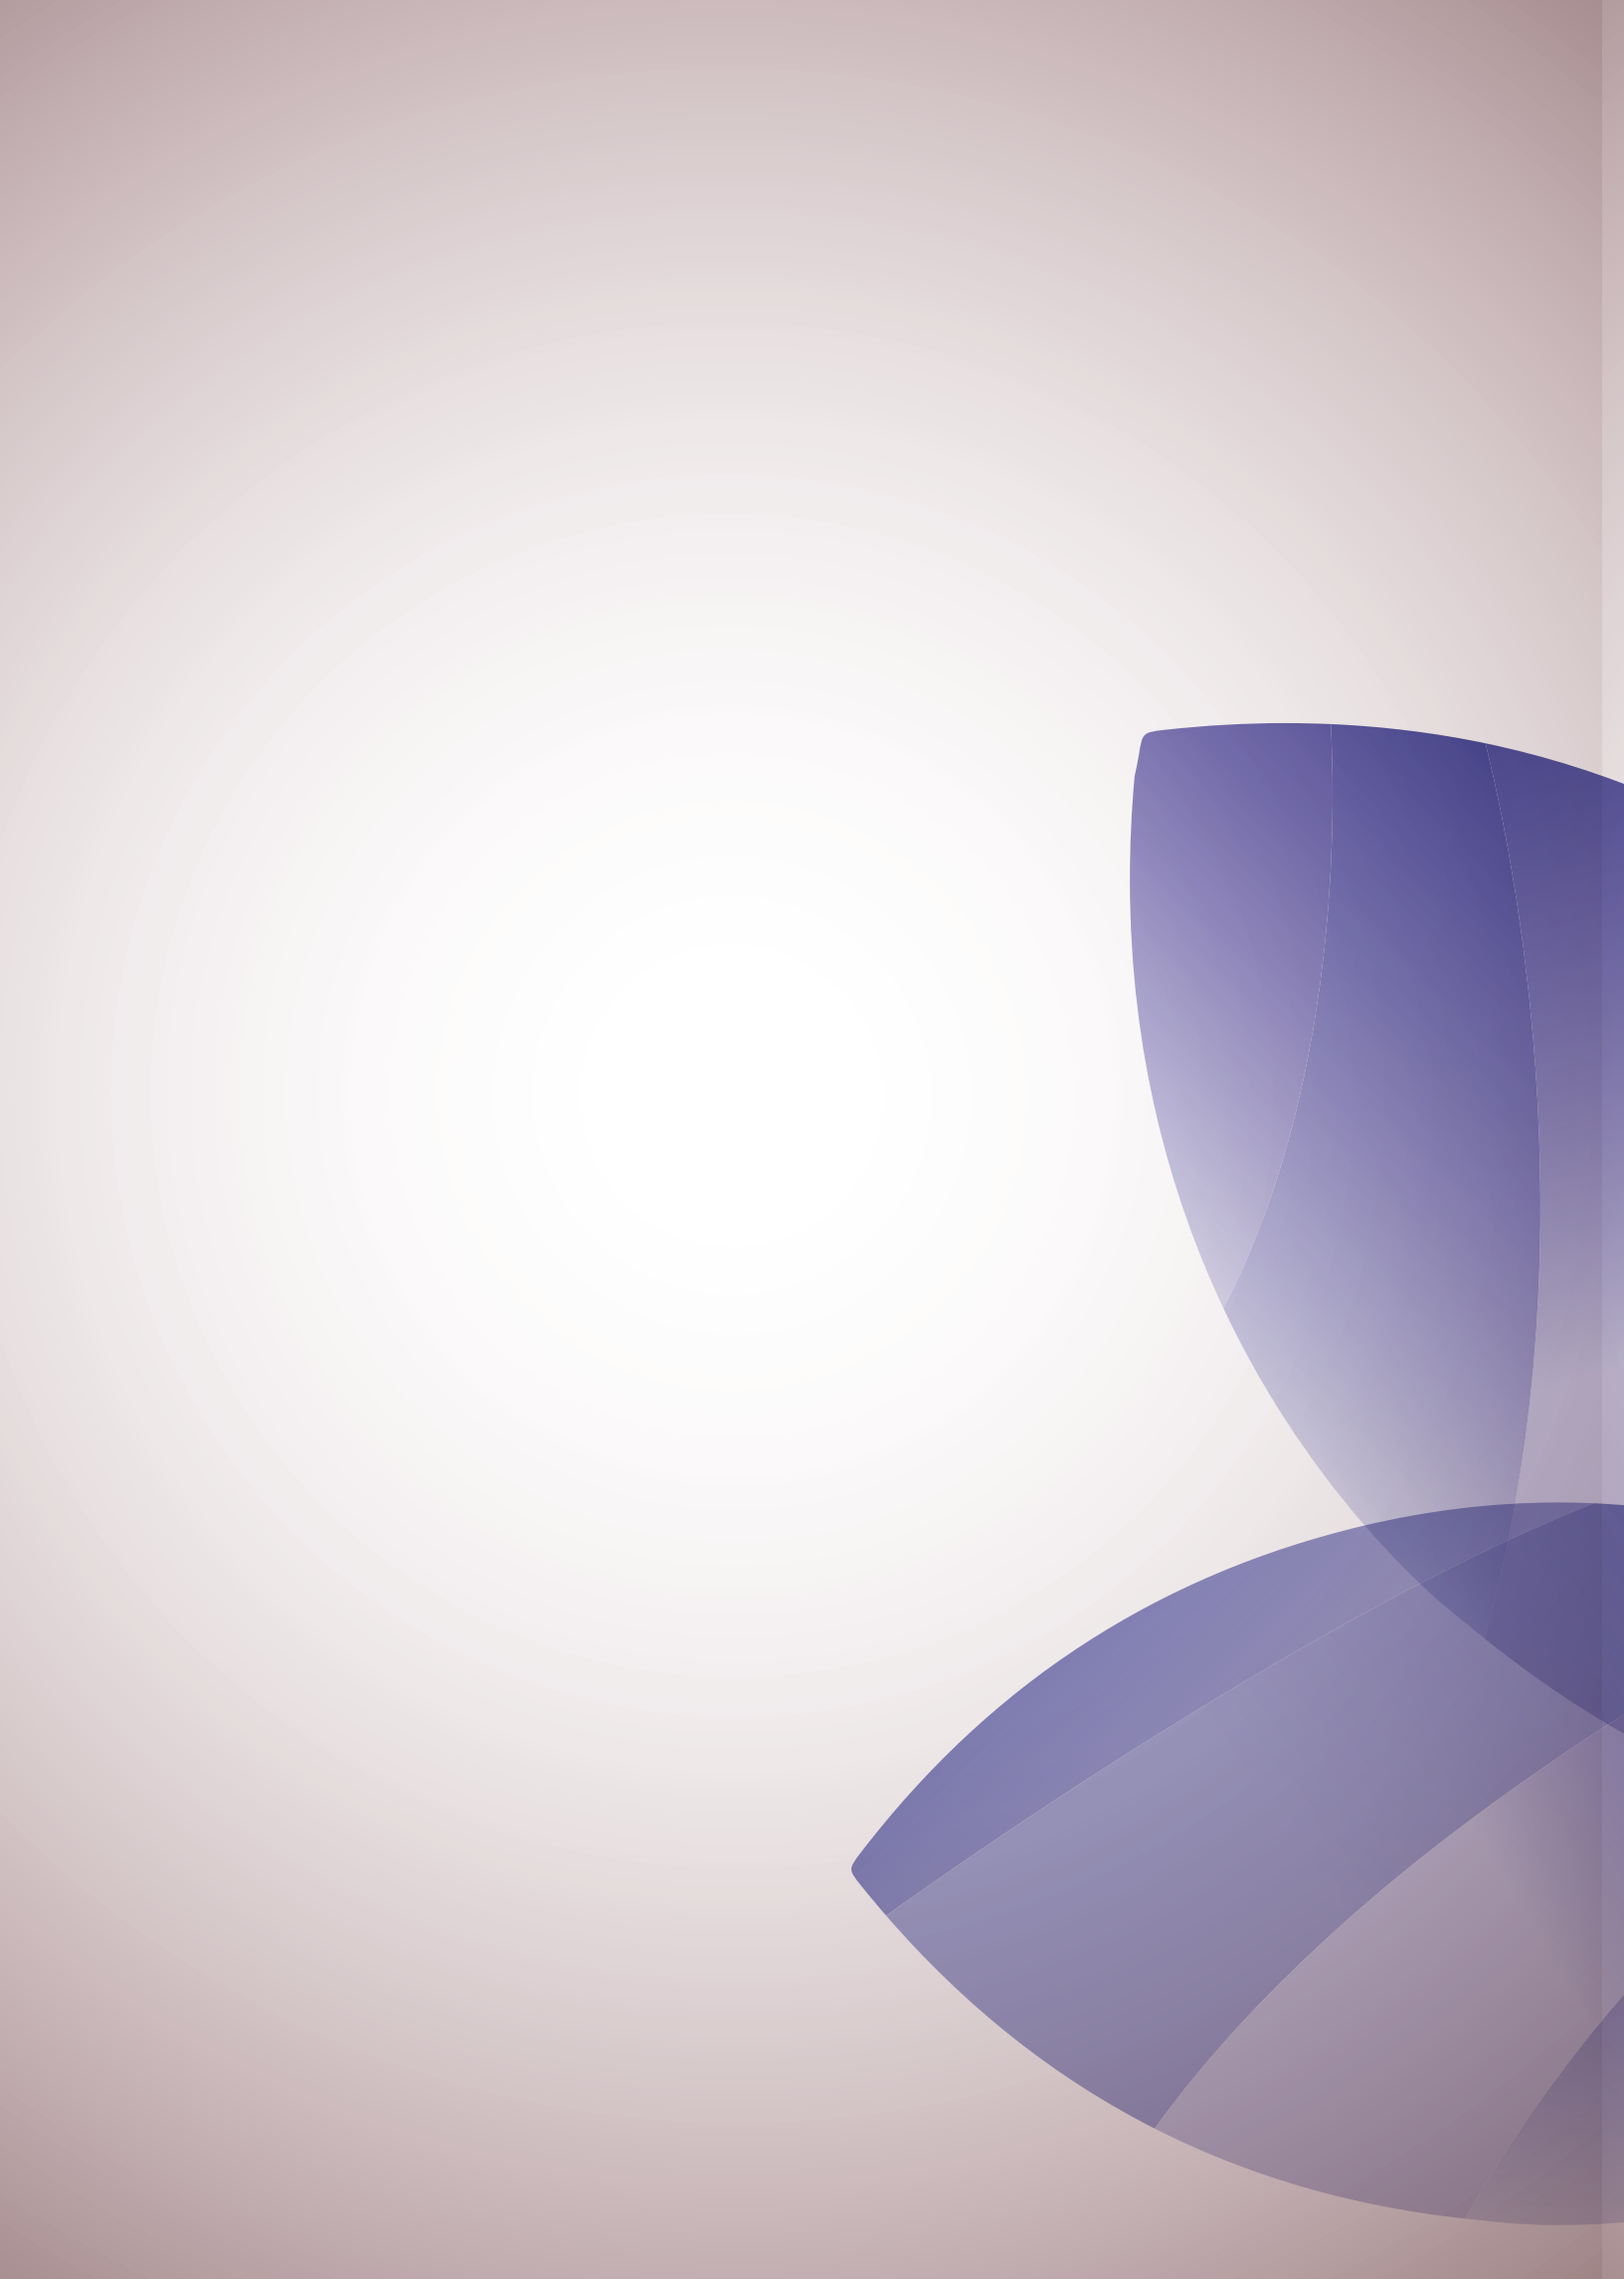

Fortunately, management has not had to face those challenges alone, the boards of EICO and Al Fakher have been instrumental to the success of the company and have provided great guidance to management. Going forward, we are encouraged by the entry of new key shareholders who will add value in developing the vision and long-term strategic initiatives for the company. Their global reach will help us expand into new markets, deal with regulators around the world, and help us find and attract the best talent. The entry of such institutional investors will mark a new chapter of our growth and evolution as we strive to reach new heights.

Allow me now to go over the results of last year. Despite of the serious political and economic challenges facing our region and the world, 2016 marked yet another record year for EICO. Through the diligent and hard work of our team we have managed to achieve 15.2% growth in revenue to reach JOD 142.7M while both gross margin and net profit margin after tax reached 46.05% and 26.17 % of revenue which is equal to JOD 65.7M and JOD 37.4M respectively. Our total assets grew by 17.3% to reach a record JOD 127M and shareholders' equity reached JOD 87M considering a dividend distribution of JOD 25M in March of 2016. Taking these achievements into consideration, the Board of Directors has recommended a dividend distribution of JOD 40M or JOD 1.333 per share.

Giving back through corporate social responsibility (CSR) programs is an integral part of our culture. The company continues to invest and support numerous programs focused on education, healthcare and sustainable development of local communities. In 2016 the company spent around JOD 427 thousand on these programs taking the total amount spent on CSR in the last five years to JOD 2.1M, and the total since its inception to over JOD 3.4M.

Finally, I would like to share my special thanks to all our partners for being a vital part of our success. Allow me also to express my sincere gratitude to the Board of Directors for their continued support, and their invaluable contributions in formulating our strategies. Last but not least, my deep appreciation goes out to our employees across the different subsidiaries for their hard work, relentless desire for improvement, and their dedication. May 2017 be another year of record achievements for everyone involved.

Sincerely,
Samer Tawfiq Fakhouri
Chairman of the Board of Directors

Report of the Board of Directors

Competitive Position of the Company

The Company has continued to strengthen its position as one of the most successful investment companies in the region. In the flavored molasses sector we have cemented our position as the global leader. In 2016 we have achieved record revenues, and profits. Consequently the company currently enjoys a strong financial position which will allow us to invest in human capital, further growing existing markets, penetration of new markets as well as geographic expansion of our operations. As for the Renewable Energy business, the company continues to grow its technical capabilities and win bigger and more important projects such the recent award of the 13MWp PV plant for the benefit of the Royal Hashemite Court.

Achievements and future plans

Most significant achievements for Al Fakher for Tobacco Trading in 2016:

- Increasing total production capacity by 17.5%.
- Commissioning of an automated 250-gram production line which has increased the efficiency.
- Development of new products
- Earned ISO 9001 certification based on the latest ISO system requirements issued in 2015
- Commissioned the primary tobacco factory and the cold storage warehouses
- Commissioned the automated mixing system in the primary tobacco factory
- Completed 75% of the works of the work force accommodation facilities with a capacity of 550 people
- Acquired the rights to utilize a new lot of land with a total area of 6,100 sqm which will be used to expand finished goods storage capacity

Future plans for 2017

- Build a new finished goods warehouse to expand the total storage capacity
- Complete construction of the accommodation facilities
- Expand geographically by opening new markets and establishing new facilities and factories
- Introducing new tobacco products and accessories

Most significant achievements for Spectrum International for Renewable Energy in 2016:

1. Installed a 3.6 MW solar project for the Bank of Jordan
2. Signed a contract with the Royal Hashemite Court to design, build and maintain a 13 MW solar project in Madouna
3. Awarded a project to design, build and maintain a 6MW solar project for the King Hussein Business Park
4. Spectrum was qualified to design and construct a combined capacity of 17MW in solar projects during 2017

The financial effects on operations of a non-repetitive nature which took place during the financial year and which does not fall within the company's main activities

Within the year used assets (cars, furniture and equipment) were sold and the financial effect thereof was the achievement of profits amounting to 14,182JOD.

Non – Recurring Expenses

Auditor's Report on Consolidated Financial Statements

**To General Assembly
Al-Eqbal Investment Company
(Public Shareholding Company)
Amman – Jordan**

Opinion

We have audited the consolidated financial statements of Al-Eqbal Investment Company and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as of December 31, 2016, and the related consolidated statements of profit or loss and other comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, comprising significant accounting policies.

In our opinion, the accompanying consolidated financial statements, in all material aspects, give a true and fair view of the consolidated financial position of the Company as of December 31, 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Emphasis of matter

Without qualifying our opinion, we draw attention to the followings:

- As mentioned in note (23) to the consolidated financial statements which describes that the company's subsidiary (Al Fakher tobacco trading and agencies) filed a lawsuit with the first instance court to object on the decision taken by the Income and Sales Tax department of Jordan for imposing taxes for the years 2009, 2010 and 2011 with an amount of JD 7,843,927 and Legal compensation with an amount of JD 3,889,245 due to the fact that the Income and Sales Tax department of Jordan considers Al Fakher tobacco trading and agencies in Ajman (United Arab Emirates) as a subsidiary and not a branch. The lawsuit is still pending in the tax first instance court. The Company's management, tax consultant and legal consultant opinion is that the probability of winning the lawsuit is high and the recorded provisions are adequate. The ultimate outcome of the lawsuit cannot reliably be determined and accordingly, no additional provision has been recorded in the consolidated financial statements against any consequences that may arise on the Group.
- As mentioned in note (23) to the consolidated financial statements which describes that the company filed a lawsuit with the First Instance Court to object on the decision taken by income and sales tax employee's for imposing sales tax on the company amounted to JD 288,000 in addition to penalty amounted to JD 576,000. The Company's Management and legal consultant opinion is that the probability of winning and cancelling the lawsuit is high. Accordingly, no provision has been recorded in consolidated financial statements against any consequences that may arise on the Group.

Basis of Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with International Ethics Standards Board of Accountants Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and not for the purpose of providing a separate opinion about these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

1- Income Tax

Description of the key audit matter	How the matter was addressed in our audit
Income tax provision requires the management to make judgments and estimates in relation to income tax lawsuits and tax provisions. This matter is considered one of the key areas in our audit on the Group, taking into consideration that subsidiaries are located in different taxable areas.	<p>Our audit procedures included to assessment of the Group's tax positions, its correspondence with the relevant tax authorities and with Group's legal and tax consultant and to analyze and challenge the assumptions used to determine tax provisions based on our knowledge and experience of the application of legislation by the relevant authorities and courts. Our assessment included consideration of the adequacy of the taken provisions by the Group to face the liabilities that may rise from income tax lawsuits.</p> <p>Based on the audit procedures performed, we noted that the Group's estimate of the amounts to be recognized as a tax liability to be appropriate and that the disclosures provide an adequate description of the current tax status of the Group.</p>

2- Impairment in Goodwill

Description of the key audit matter	How the matter was addressed in our audit
<p>In 2006 Al-Eqbal Investment Company purchased Al Fakher Tobacco Factory with an amount of AED 40,053,590, which is equal to JOD 7,730,000.</p> <p>This purchase resulted in goodwill in favor of the company with an amount of JOD 6,602,986, where it was recorded as goodwill in the financial statements. There were no changes in the book value of this goodwill until the date of the consolidated financial statements. The Group's management performs an annual goodwill evaluation to determine whether there is any indication of impairment of goodwill.</p> <p>Evaluating goodwill includes many assumptions and estimates, which make it a Key Audit Matter.</p>	<p>We have evaluated the report that was submitted by an expert for the coming five years, where the expert used the discounted future cash flows using a growth rate which is consistent with the average growth rate for the last five years, and a discount rate which is consistent with borrowing interest rate.</p> <p>The study showed that there is no decline in goodwill value and therefore there is no indication of impairment of goodwill value as of December 31, 2016.</p>

3- Impairment in trade receivables

Description of the key audit matter	How the matter was addressed in our audit
<p>The Group has trade receivables with an amount of around 25 million as of December 31, 2016, comparing to approximately 10 million as of 31 December 2015, this increase resulted from increasing the ceilings granted to some customers in addition to new customers the Group started dealing with during 2016.</p> <p>The adequacy of the recorded provisions for those receivables depends on management estimates, which make it a Key Audit Matter.</p>	<p>Our audit procedures include testing the Group's controls over the receivables collection processes; including accepting new customers, testing the receipt of cash subsequent to year end; and testing the adequacy of the Group's provisions against trade receivables by assessing the management's assumptions, taking into consideration the external available data on trade credit exposures and our own experience in bad debt in this sector.</p>

Other Information

Management is responsible for the other information. The other information does not include the consolidated financial statements and audit report on the consolidated financial statements or any other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Through performing our audit on the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit. If we conclude that there is a material misstatement in this other information, we are required to report that fact. Noting that, nothing has drawn our attention to matters that require reporting.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal controls as management considers necessary to enable the preparation and presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the consolidated financial reporting preparation process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our audit report that includes our opinion on the consolidated financial statements.

Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of audit process in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the Group's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, we will modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion on the consolidated financial statements of the Group.

We communicate with those charged with governance regarding, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore, the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

The Group maintains proper accounting records. Which are, in accordance in all material respects with the accompanying consolidated financial statements.

These financial statements are translated copy to the English language of the original consolidated financial statements issued in the Arabic language.

The accompanying notes from pages (61) to (91) are an integral part of these consolidated financial statements.

**Clarifications
on Consolidated
Financial Statements**

1) GENERAL

Al-Eqbal PLC Investment Company (International Tobacco and Cigarettes PLC previously) was established in accordance with Jordan Companies temporary Law no. (1) for the year 1989 as a Jordanian public shareholding company, and registered in the ministry of industry and trade of Jordan under no. (218) on June 1, 1992. The authorized paid up capital amounted 5million (1 JD /share).

On 10/10/1993 the capital has raised through special offering by 100% of the capital to reach JD (10) million. On 5/5/1998 the capital has raised through distributing free shares by 20% of the capital to reach JD (12) million. On 16/4/2001 the company has merged with Eqbal for Financial Investments Company to be the capital JD 14,304,675. On 15/4/2002 the capital has raised through distributing free shares by 5% of the capital to reach JD (15) million. On 10/4/2005 the capital has raised through distributing free shares by 10% to reach JD 16,500,000. On 16/4/2006 the capital has raised through distributing free shares by 21% of capital to reach JD (20) million. On 25/2/2013 the capital has raised through distributing free shares by 25% of the capital to reach JD (25) million. The general assembly decided on March 24, 2016 to increase its paid-up capital by 5,000,000 shares through distribution from retained earnings JD 5,000,000. The Company's paid-up capital become 30 million (1 JD/share). The Company completed the procedures in the Ministry of trade and industry during the second quarter of the year 2016.

The company's main objectives inside and outside the kingdom include the following:

- Owning commercial agencies.
- Trade intermediaries (except dealing with International stock).
- Engaging in brokerage and trading tenders.
- Import and export to serve the company's business.
- Guaranty of third parties obligations relevant to the interest of the company.
- Investment of the Company's funds surplus in the appropriate way.
- Ownership of movable and immovable funds, for achieving the company's objectives.
- Ownership of land and real estate for achieving the company's objectives.
- Contracting with any government, commission, authority, company, institution or individual interested in the goals and objectives of the company or any of them.
- Borrowing needed money from banks.

The consolidated financial statements were approved by the Board of Directors on January 25, 2017 and is subject to the General Assembly's approval.

2) BASIS OF PREPARATION CONSOLIDATED FINANCIAL STATEMENTS

(a) Statement of Compliance

The consolidated financial statements have been prepared in accordance with international financial reporting standards.

(b) Basis of consolidated financial statements

The consolidated financial statements comprise of the consolidated financial statements of Al-Eqbal investment Company (the "Parent Company") and its subsidiaries, which subject to its control. Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

The parent company controls subsidiaries when it is exposed, or has rights, to variable returns from its involvement with these subsidiaries and has the ability to affect those returns through its power over these subsidiaries.

Thus, the principle of control sets out the following three elements of control:

- 1- Power of the investor over the investee;
- 2- Exposure, or rights, to variable returns of the investor from its involvement with the investee; and
- 3- The ability of the investor to use power over the investee to affect the amount of the investee and its returns.

The Parent Company should reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three above mentioned elements.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment.

Any gain on bargain purchases is recognized in the statement of profit or loss and other comprehensive income. Extra transactions costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationship. Such amounts are generally recognized in consolidated statement of profit or loss and other comprehensive income.

Any contingent consideration payable is measured at fair value at the acquisition date if the contingent consideration was classified as equity. As a result, any transactions are treated through equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognized in consolidated statement of profit or loss and other comprehensive income.

Non-controlling interest are measured at their proportionate share of the acquirer's identifiable net assets at the acquisition date.

On loss of control, the parent-subsidiary relationship ceases to exist. The parent no longer controls the subsidiary's individual assets and liabilities and other elements of owners' equity related to the subsidiary and eliminated from the consolidated financial statements.

Gain or loss associated with the loss of control attributable to the former controlling interest are recognized in the consolidated profit or loss and other comprehensive income.

Balances, transactions and unrealized profits and expenses resulted from transactions within the group are eliminated when preparing these consolidated financial statement.

The company owns the following subsidiaries as of December 31, 2016:

Company Name	Capital	Percentage Ownership	Nature of Operation	Country of Operation

International cigarettes and Tobacco Company	4,249,070	-	-	(4,953)
Pioneer Venture Group Company	30,456	128,980	-	(133,988)

(c) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the financial assets at the fair value through profit or loss measured at fair value, financial assets and liabilities measured at amortized cost.

(d) Functional and presentation currency

The consolidated financial statements are presented in Jordanian Dinar, which is the Group's functional currency.

(e) Use of Judgments and estimates

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

In particular, information about significant areas of estimation uncertainties and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is summarized as follows:

Management periodically reassesses the economic useful lives of tangible and intangible assets based on the general condition of these assets and the expectation for their useful economic lives in the future.

Management frequently reviews the lawsuits raised against the group based on a legal study prepared by the company's legal advisors. This study highlights potential risks that the group may incur in the future.

A provision for impairment on account receivables is taken on the basis and estimates about the recoverability of the receivables approved by management in conformity with International Financial Reporting Standards (IFRS).

Management estimates the provision to decrease inventory to net realizable value if the cost of inventory may not be recoverable, damaged, wholly or partially obsolete, and its selling price to fall below cost or any other factors that causes the recoverable amount to be lower than its carrying amount.

Management reviews annually the recoverable amount of the goodwill to determine whether there was any impairment in its value.

Management estimates the recoverable amount of the other financial assets to determine whether there was any impairment in its value.

Management estimates the provision for income tax in accordance with the prevailing laws and regulations.

Fair value measurement :

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

1- In the principal market for the asset or liability, or

2- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group

1- In the principal market for the asset or liability, or

2- In the absence of a principal market, in the most advantageous market for the asset or liability The principal or the most advantageous market must be accessible to by the Group

The asset or liability measured at fair value might be either of the following:

A- A stand-alone asset or liability; or

B- a group of assets, a group of liabilities or a group of assets and liabilities (eg a cash generating unit or a business).

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the CFO. The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified. Significant valuation issues are reported to the Group Audit Committee.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period.

3) Significant Accounting Policies

The Group has adopted early International Financial Reporting Standard IFRS 9 Financial Instruments to be applied on the financial statement that begins on the first of January 2011 based on the instructions of security exchange commission. This standard is mandatory well be applied internationally on January 1, 2018:

The accounting policies applied by the Group in these consolidated financial statements for the year ended 31 December 2016 are the same as those applied by the Group in its consolidated financial statements for the year ended 31 December 2015, except for the following International Financial Reporting Standards effective on January 1, 2016 and after:

Standards	Effective Date
Amendments to IFRS 10, IFRS 12, and IAS 28 Investment Entities: Applying the Consolidation Exception	January 1st, 2016
Amendments to IFRS 11, Accounting for Acquisition of Interests in Joint Operations	January 1st, 2016
Amendment to IAS 1 Disclosures Initiatives	January 1st, 2016
Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortization	January 1st, 2016
Amendments to IAS 41 Agriculture	January 1st, 2016
Amendments to IAS 27	January 1st, 2016
Annual Improvements to IFRSs 2012- 2014 Cycle	January 1st, 2016

The application of these amended standards did not have a significant effect on the consolidated financial statements of the Group.

a) Financial instruments

The Group classifies non-derivative financial assets into the following categories: financial assets at fair value through profit or loss, loans and receivables and Investments at fair value through other comprehensive income. The Group classifies non-derivative financial liabilities into the other financial liabilities category.

-Non-derivative financial assets and financial liabilities – recognition and derecognition

The Group initially recognizes loans and receivables issued on the date when they are originated. All other financial assets and financial liabilities are initially recognized on the trade date. The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such transferred financial assets that is created or retained by

the Group is recognized as a separate asset or liability. The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expired.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

b) Non-derivative financial assets – measurement

Financial assets at fair value through other comprehensive income (IFRS 9)

These assets represent investments in equity instruments with the intention to keep them as a long term investments.

When purchasing these assets they are recognized at fair value including acquisition expenses then to be re-evaluated later at fair value, where changes in the fair value appears in the consolidated statement of other comprehensive income and owners' equity including the change in fair value resulting from the differences in conversion of non-monetary assets items in foreign currencies, in case of selling such assets or part there of profits or losses to be recorded in the consolidated statement of other comprehensive income and owners' equity where the valuation reserve balance of the sold assets should be directly transferred to the retained earnings and losses and not through the consolidated statement of profit or loss and other comprehensive income.

However, for investments in equity instruments that are not held for trading, the Group may elect at initial recognition to present gains and losses in OCI. For such investments measured at fair value through OCI, gains and losses are never reclassified to profit or loss, and no impairment is recognized in profit or loss. Dividends earned from such investments are recognized in profit or losses as a separate line item.

• Financial assets at amortized cost (IFRS 9)

The financial assets held within the Group management whose objective is to hold these assets in order to collect contractual cash flows, which represent payments of principal and interest on the principal amount outstanding on specific dates, these assets are not traded in an active market and group has no intent to sell these assets in near future.

When purchasing these assets they are recognized at cost plus acquisition costs, where premium / discount are amortized using the effective interest method, recording or to the interest account, where any provisions resulted from the impairment in its amount leads to the inability to recover the principal or part of it are deducted, any impairment in its amount to be recognized at the statement of profit or loss and other comprehensive income.

The impairment amount in the value of these assets represents the difference between the value recorded at the books and the present value of the expected discounted cash flows at the original effective interest rate.

Financial assets should not be reclassified from / to this item except in specified cases by the International Financial Reporting Standards. In case of sale of any of these assets before its due date where the sales result should be recorded at the statement of profit or loss and other comprehensive income in a separate line and to be disclosed in accordance to the international financial reporting standards requirements.

• UNon-derivative financial liabilities – measurement (IAS 39 and IFRS 9)

Non-derivative financial liabilities are initially recognized at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method.

c) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates and the joint venture are accounted for using the equity method. They are recognized initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss of equity accounted investees, until the date on which significant influence or joint control ceases.

Intra-group balances and transactions, and any unrealized income and expenses arising from Intra-group transactions, are eliminated. Unrealized gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

d) Property, plant and Equipment

Recognition and measurement

- Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.
- Cost includes expenditures that are directly attributable to the acquisition of the property, plant and equipment.
- When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separated items of property, plant and equipment.
- Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the consolidated statement of profit or loss and other comprehensive income.

Subsequent costs

- The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized.
- Ongoing costs of repair and maintenance of property, plant and equipment are expensed in the consolidated statement of profit or loss and other comprehensive income as incurred.

- Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognized in profit or loss. Land is not depreciated.

- The estimated useful lives of property, plant and equipment for the current and previous year are as follows:

Items of property, plant and equipment	Depreciation rate %
Vehicles	%20 – %25
Other equipment	%20 – %25
Computers and office equipment	%20 – %25
Furniture and fixtures	%10 – %20
Tools	%25
Machines and equipment	%10 – %20
Buildings and apartments	%5
Leasehold improvements	%20

The group reviews the useful lives and depreciation for the property, plant and equipment at the end of each financial year.

e) Impairment

Financial Assets

A financial asset is assessed at each reporting date to determine whether there is objective evidence that it is impaired.

A financial asset is impaired if objective evidence indicates that a loss event had a negative effect on the estimated future consolidated cash flows of that asset that can be estimated reliably. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future consolidated cash flows discounted at the asset's original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost, the reversal is recognized in the consolidated statement of consolidated profit or loss and other comprehensive income.

Non-Financial Assets

The carrying amounts of the group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognized if the carrying amount of an asset or cash generating unit exceeds its estimated recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs to sell or its value in use. All impairment losses are recognized in the consolidated statement of profit or loss and other comprehensive income.

f) Investment in property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investments Property is recognized initially at cost. Their fair values are disclosed in the notes of the consolidated financial statements, independent real-estate experts based on market values, in an active market, revalue investment property annually.

g) Intangible Assets

Goodwill

The Group measures goodwill at the acquisition date as the fair value of the consideration transferred; plus The recognized amount of any non-controlling interests in the acquire; plus the fair value of the pre-existing equity interest in the acquire; less The net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

Goodwill is measured at cost less accumulated impairment losses. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and any impairment loss is allocated to the carrying amount of the equity-accounted investee as a whole.

Other intangible assets

Other intangible assets that are acquired through other than acquisition are recognized at cost less accumulated amortization and accumulated impairment losses.

Intangible assets, which have finite useful lives, are amortized over their useful lives. Amortization is recognized in the consolidated profit or loss and other comprehensive income; however, intangible assets without definite useful lives are required to be tested for impairment as of the date the consolidated financial statement. Impairment loss shall be recognized in the consolidated statement profit or loss and other comprehensive income.

Intangible assets arising from company operation are not capitalized and should be recognized in the consolidated statement of profit or loss and other comprehensive income when incurred.

Intangible assets are assessed at each consolidated reporting date to determine whether there is any objective evidence that they are impaired as well as the useful lives of the intangible asset are annually reassessed and any adjustments raised are recognized in the subsequent years.

Amortization

Amortization is calculated using the straight-line method over their estimated useful lives, and is generally recognized in consolidated statement of profit or loss and other comprehensive income.

h) Revenues recognition and expenses realization

Revenue is recognized based on accrual basis.

Revenue is recognized when the Group transfers the significant risks and rewards of ownership to the customer and cash recovery of the consideration is probable, when the associated costs and possible costs of goods can be estimated reliably, and there is no continuing management control over the goods. Also, when there is expected economic financial benefits associated from the sale and if trade discount and volume rebate can be measured reliably in order that the trade discount and volume rebate is recorded as recognized.

Interest income and expense presented in the consolidated statement of profit or loss and other comprehensive income include:

Interest income / expense on financial assets and financial liabilities measured at amortized cost calculated on an effective interest rate basis.

Interest income on Banks deposits.

Interest expense on the borrowings and bank facilities.

i) Foreign Currency Transactions

Transactions in foreign currencies during the year are translated at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Jordanian Dinar at the exchange rate at that date.

The foreign currency gain (loss) on monetary items is the difference between amortized cost in Jordanian Dinar at the beginning of the year, adjusted for effective interest rate and payments during the year, and the amortized cost in foreign currency translated to JOD at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to Jordanian Dinar at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation of foreign currencies to Jordanian Dinar are recognized in the consolidated statement of profit or loss and comprehensive income.

j) Fair value for financial assets

Fair values represent the amount with which an asset could be exchanged, or a liability settled, in a transaction between knowledgeable, willing parties in an arm's length transaction. The closing prices (purchase of assets / sale of liabilities) on the consolidated financial statements date in effective markets, represents the fair value of financial assets and liabilities that have market prices.

In the absence of quoted prices or lack of active trading of some financial assets or the in absence of an active market, fair value is determined by comparing with current market value of financial instrument, or by using the discounted future cash flows discounted at the rate of similar financial instrument or by use the net assets value method of investments.

k) Offsetting

Financial liabilities are set off against financial assets, and the net amount is shown in the consolidated financial position only when the obliging legal rights are available or when settled on net basis or the realization of assets or settlement of liabilities is done at the same time.

l) Date of recognition of financial assets

Purchase and sell of financial assets are recognized on the trading date (date when company commitment to sell or buy financial assets)

m) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

n) Finance expenses

Finance expenses comprise interest expense on borrowings. All borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in the consolidated statement of profit or loss and other comprehensive income using the effective interest method.

o) End of Service Indemnity

A provision for end of service indemnity is recognized if, as a result of a past event, and that can be estimated reliably, and it is probable that an outflow of economic benefits will be required. Provisions for end of service indemnity is calculated bases on the Group's internal bylaw.

p) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in the consolidated statement of profit or loss and other comprehensive income except to the extent that it relates to a business combination, or items recognized directly in the consolidated statement of profit or loss and other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the consolidated reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Current tax payable is in accordance with prevailing income tax law in Jordan.

q) Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares.

a) New standards and interpretations not yet adopted

A number of new standards, amendments and improvements to standards and interpretations are effective for annual periods beginning on January 1, 2016, and have not been applied in preparing these financial statements. Those which may be relevant to the Group, is set out below.

Amendments

- IFRS (2): Classification and Measurements of Share-Based Payments (effective on January 1st, 2018 with earlier application permitted).
- IFRS (10) and IAS (28): Sale or Contribution of Assets between and Investor and its Associate or Joint Venture. (date to be determined).
- IAS (7): Disclosure Initiative (effective on January 1st, 2017 with earlier application permitted).
- IAS (12): Recognition of Deferred Tax Assets for Unrealized Losses (effective on January 1st, 2017 with earlier application permitted).
- IAS (40): Clarify Transfers of Property to, or from, Investment Property (effective on January 1st, 2018)

Improvements

- Annual Improvements to IFRSs 2014 –2016 Cycle – Amendments to IFRS 12 disclosure of interest of other entities (effective on January 1st, 2017).
- Annual Improvements to IFRSs 2014 –2016 Cycle – Amendments to IFRS 1 First-Time Adoption of IFRSs and IAS 28 Investments in Associates and Joint Ventures (effective on January 1st, 2018)

New standards

- International Financial Reporting Standards (9): Financial Instruments (effective on January 1st, 2018 except for Insurance Companies which will be effective on January 1st, 2021 with earlier application permitted).
- International Financial Reporting Standards (15): Revenue from Contracts with Customers (effective on January 1st, 2018 with earlier application permitted).
- International Financial Reporting Standards (16): Leases (effective on January 1st, 2019 with earlier application permitted).

4) Segment Reporting

An operating segment is a group of components of the Group affected by risks and returns that distinguish it from others and engages in producing products or services known as operating segments or engages in producing products or services within specific economic environment that distinguish it from other sectors known as geographical segments.

A- Operating Segment

The Company operates its activities in major operating segments, which represents the follows:

- Tobacco manufacturing and trading.
- Investments
- Energy.

B- Geographical Segment

The Company operated its activities inside and outside of the Hashemite Kingdom of Jordan.

For the year end December 31, 2016	Tobacco manufacturing and trading	Energy	Investments	Total
Segment net revenue	65,120,542	611,725	-	65,732,267
Administrative expenses	(8,270,654)	(614,800)	(1,581,350)	(10,466,804)
Selling and distribution expenses	(14,119,278)	-	-	(14,119,278)
Gain from investment in associate	-	93,525	1,088	94,613
Dividends from financial assets at Fair value through other comprehensive income	-	33,045	-	33,045
Impairment in advance payments for investments	-	(950,000)	-	(950,000)
Finance cost	(485,865)	(40,277)	(1,928)	(528,070)
Interest revenue	769,622	-	-	769,622
Gain from sale of property, plant and equipment	9,491	-	4,691	14,182
Other income	778,213	(227)	481,460	1,259,446
Segment profits (losses) for the year before tax and board of directors' remuneration	43,802,071	(867,009)	(1,096,039)	41,839,023
Segment total assets	120,091,643	4,575,102	2,315,965	126,982,710
Segment total liabilities	38,338,418	373,179	1,636,127	40,347,724
Capital expenditure	2,460,241	51,160	22,000	2,533,401

For the year end December 31, 2015 Jordanian Dinar	Tobacco manufacturing and trading	Energy	Investments	Total
Segment net revenue	52,766,954	162,501	-	52,929,455
Administrative expenses	(7,803,191)	(402,173)	(1,226,765)	(9,432,129)
Selling and distribution expenses	(9,161,840)	-	-	(9,161,840)
Impairment in investment in associate		(146,550)	(5,333)	(151,883)
Dividends from financial assets at Fair value through other comprehensive income	325	227,261	-	227,586
Finance Expenses	(539,135)	-	-	(539,135)
Interest Revenue	684,142	-	-	684,142
Gain from sale of property, plant and equipment	13,091	-	36,627	49,718
Other income	309,149	2,541	(502)	311,188
Contingent liabilities provision	(1,386,102)	-	-	(1,386,102)
Segment profits (losses) for the year before tax and board of directors' remuneration	34,883,393	(156,420)	(1,195,973)	33,531,000
Segment total assets	101,098,480	5,827,704	1,308,362	108,234,546
Segment total liabilities	31,891,744	200,587	1,918,614	34,010,945
Capital expenditure	2,792,010	632,993	4,569	3,429,572

5) Cash on hand and at banks

Jordanian Dinar	As of December 31,	
	2016	2015
Cash on hand	1,818,220	2,128,087
Current accounts at banks	19,742,803	16,368,598
Deposits at banks *	28,168,412	26,624,692
	49,729,435	45,121,377

* The maturity date of the deposits is March 31, 2017 and their interest is between 4.15% to 4.25%.

6) Trade and other receivables

Jordanian Dinar	As of December 31,	
	2016	2015
Trade receivables	25,414,600	9,425,421
Advancepayment to suppliers	364,266	746,665
Other	-	101,230
	25,778,866	10,273,316
Provision for impairment on doubtful debts*	(160,983)	(213,798)
	25,617,883	10,059,518

Impairment of trade receivables is calculated when the ceilings agreed in advance with customers is exceeded. Provision is made for the entire balance (the ceiling of the facilities in addition to excess) in the case of late payment from the customer.

*The movement on the provision for impairment on doubtful debts is as follow:

Jordanian Dinar	As of December 31,	
	2016	2015
Balance as of January 1	213,798	213,798
Provision made during the year	48,415	-
Written off provision during the year	(101,230)	-
	160,983	213,798

*Aging customer accrued accounts as follow :

Jordanian Dinar	Total	0 – 90 day	91-180 day	181-270 day	271-365 day	More than 365 day
2016	25,414,600	24,633,912	541,120	51,559	27,026	160,983
2015	9,425,421	8,829,235	279,647	102,741	-	213,798

7) Inventory

Jordanian Dinar	As of December 31,	
	2016	2015
Raw material	15,152,781	13,321,295
Work in process	164,721	139,017
Finished goods	1,980,067	1,592,530

Goods in transit	60,481	1,937,517
Spare parts inventory	844,708	1,681,630
Advertisement and accessories goods inventory	1,170,752	1,485,466
Consumable goods inventory	104,067	217,331
	19,477,577	20,374,786
Provision for slow-moving inventory*	-	(999,482)
	19,477,577	19,375,304

*During the year 2016, the Group write off inventory amounted of JOD 999,482 that related to international Cigarettes Company.

8) Other debit balances

Jordanian Dinar	As of December 31,	
	2016	2015
Key-money*	1,750,407	967,595
Accrued interest revenue	337,450	271,767
Prepaid expenses	1,022,157	794,414
Prepaid income tax	552,017	593,639

9) Financial assets at fair value through statement of other comprehensive income

Jordanian Dinar	As of December 31,	
	2016	2015
Quoted market prices	613,608	2,229,409
Unquoted market prices	301,025	301,025
	914,633	2,530,434

* This item represents the fair value of financial assets in listed financial markets for the Group's share in Bank of Jordan according to the market value as of December 31, 2016 and 2015.

** This item represents the fair value of financial assets in unlisted financial markets for the Group's share in North Industrial Company (Palestine), the Group has determined the fair value of this item using Net Assets Method for the last audited financial statements available.

10) Investment property

Country	Area	Land no	Piece number	As of December 31,	
				2016	2015
UAE – Ajman*	Aljorf	2 S	2/1/271	271,028	271,028
Jordan – Amman**	Aljbayha	1	1	403,524	387,856
				674,552	658,884

* The fair value for Ajman's land as of December 31, 2016 according to weighted average real estate expert valuation amounted to JOD 318,450 2015: JOD 337,750) the fair value measurement for land has been categorized under level 2 fair value based on the inputs that has been determined either directly (i.e., as prices) or indirectly (i.e., derived from prices of similar assets).

** The fair value for Amman's land as of 31, December 2016 according to weighted average real estate expert valuation amounted to JOD 1,845,063 (2015: JOD 1,889,772) the fair value measurement for land has been categorized under level 2 fair value based on the inputs that has been determined either directly (i.e., as prices) or indirectly (i.e., derived from prices of similar assets).

11) Intangible assets – Goodwill from acquisition of subsidiary

The Fakher international trading tobacco and agencies purchased on June 1, 2006 100% of Fakher trading tobacco and agencies – Ajman as follow:

Jordanian Dinar	Fair value on acquisition	Book value on acquisition
Property, plant and equipment	418,293	418,293
Land	251,817	251,817
Other debit balances	38,857	38,857
Inventory	418,390	418,390
	1,127,357	1,127,357
Account payables and other credit balances	(10,343)	(10,343)
Net assets	1,117,014	1,117,014
Cash paid	7,720,000	
Goodwill from acquisition	6,602,986	
Cash flow at acquisition		
Net cash obtained from subsidiary company	-	
Cash paid	7,720,000	
Net cash paid	7,720,000	

Based on the expert report for the next five years, where the expert used the discounted future cash flows using a growth rate which is consistent with the average growth rate for the last 5 years, and a discount rate which is consistent with borrowing interest rate taking in consideration the revenue growth by calculating the growth rate during the 5 years, and assuming the selling prices which is consistent with the expected gross profit for the next 5 years.

The study showed that there is no decline in goodwill value and therefore there is no impairment in goodwill value as of 31 December 2016.

The realizable value is the value which arises from cash flow units, where it is calculated based on fair value after deducting the cost of disposal based on the expected amount of the discounted future cash flows. Accordingly, it can be classified within the fair value under second level.

19) Dividends

The following table described the declared dividends by the Group:

Jordanian Dinar	For the year end December 31,	
	2016	2015
Cash Dividends*	25,000,000	25,000,000
	25,000,000	25,000,000

* The General assembly decided in its meeting held on February 25, 2016 to distribute an amount of 25,000,000 as dividends for the year 2015.

* The General assembly decided in its meeting held on March 4, 2015 to distribute an amount of 25,000,000 as dividends for the year 2014.

* The general assembly decided on March 24, 2016 to increase its paid-up capital by 5,000,000 shares through distribution from retained earnings JD 5,000,000. The Company's paid-up capital become 30 million (1 JD/share).

* The Company's Board of Directors in its meeting held on January 25, 2017 recommended to the general assembly to distribute an amount of 40,000,000 as cash dividends.

20) Income tax

Income tax expense is recognized based on management's estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the year.

The movement on income tax provision during the year was as follows:

Jordanian Dinar	For the year end December 31,	
	2016	2015
Balance at the beginning of the year	3,045,480	2,059,211
Allowance for the year	4,440,565	2,250,417
Income tax paid for the year	(1,876,892)	(1,264,148)
Balance at the end of the year	5,609,153	3,045,480

Group tax position

a- Parent company – Al Eqbal for Investment PLC

The income tax was settled until 2014. The income and sales tax department audited the financial year 2012 where the company has objected on the final decision of the income and sales tax department at court. In the tax consultant opinion was misplaced and will be separated for the company.

The tax return for the year 2015 was submitted within the legal period and the department hasn't audited the company's accounts till the date of the consolidated financial statements.

In the tax consultant opinion, the company doesn't need to account any provision for the income tax liability for the business results.

b- Subsidiary – AL Fakher for Tobacco trading and Agencies LLC

Al-Fakher – Amman

The Income Tax was settled until the financial year 2008. The Income Tax Department audited the accounts of the company and issued its final decision for the financial years 2009, 2010 and 2011 which was objected to the court of the tax, in the Company's management and tax consultant's opinion, the decisions of the Tax Department is misplaced and will be dismissed in favor of the company.

The tax return for the year 2013 was accepted within the unaudited sample.

The tax return was submitted for the financial year 2012, 2014 and 2015 within the legal period of submission, the department did not audit the company's accounts and did not issue its final decisions till the date of the preparation of the consolidated financial statements.

In the tax consultant opinion the company should take a provision by an amount of JD 37,620 for the income tax liability resulting from the company's business in Amman for the year ended December 31, 2016 and an amount of JOD 4,361,561 as a provision of 10% of net profit of Al Fakher Tobacco Factory (UAE).

Al-Fakher – Aqaba private

The Income Tax was settled until 2011. The tax return was submitted for the years 2012, 2013, 2014 and 2015 within the legal period of submission, the department did not audit the company's accounts and didn't issue its final decisions till the date of the preparation of the consolidated financial statements.

In the tax consultant opinion the company should take a provision by an amount of JOD 166 for the income tax liability for the year ended December 31, 2016.

c- Subsidiary – Spectrum International for Renewable Energy LLC

The Income Tax was settled until the financial year 2011. The tax return was submitted for the financial year 2012, 2013, 2014 and 2015 within the legal period for submission of statements, the department did not audit the company's accounts and issue final decisions until the date of the preparation of the consolidated financial statements.

In the tax consultant opinion the company should take a provision by an amount of JOD 41,218 for the income tax liability for the year ended December 31, 2016 for the external investments.

Income tax expense recognized based on management estimate of enacted of average annual tax rate for the whole financial year which is applied on the profit for tax for the year. The company makes a reconciliation between taxable income and financial income. The tax rate based on prevailing local law is 20% for Al Eqbal Company and Al Fakhar- Aqaba 5% and 10% on the Al Fakher Tobacco Factory (UAE), the effective tax rate for the group is 10.43% for the profit for the year ended December 31, 2016 (December 31, 2015: 6.35%)

21) Earningsper share

Jordanian Dinar	As of December 31,	
	2016	2015
Profit for the year for the shareholders (JD)	37,353,458	31,235,583
Weighted average for number of shares (Share)	30,000,000	30,000,000
Earnings per share for the year	1.245	1.041

The earnings per share was calculated by dividing the profit for the year on the number of outstanding shares amounting to 30 million shares as of December 31, 2016.

The weighted average for number of shares was adjusted for the comparative year, as the company has capitalized 5 million free stock from the retained earnings in according with IFRS 33.

22) Provision of employees' end of service indemnity

End of service indemnity is calculated according to the company's internal bylaw, the movement on the provision during the year was as follows:

Jordanian Dinar	As of December 31,	
	2016	2015
Balance at the beginning of the year	2,906,197	2,179,857
Provision for the year	998,107	1,030,626
Paid during the year	(23,993)	(304,286)
Balance at the end of the year	3,880,311	2,906,197

23) Contingent liabilities

The contingent liabilities at the date of these consolidated financial statements are as the following:

Jordanian Dinar	As of December 31,	
	2016	2015
Bank guarantees	2,504,422	198,826
	2,504,422	198,826

Against cash margins represented as follow:

Jordanian Dinar	As of December 31,	
	2016	2015
Cash margins	181,096	198,826
	181,096	198,826

The Company filed a lawsuit with the First Instance Court to object to the decisions passed on by the Income Tax Department for imposing income tax on the year 2012 with an amount of JOD 111,756 in addition to a legal compensation amount of JOD 46,123.

Based on the company's management and tax consultant, it is probable to win the case due to the fact that the objection committee didn't deduct the yearly donations, the BOD rewards and the full amount of retained earnings and also, it didn't take into account the necessity of subtracting the interest expense and currency differences from the interest revenue.

The Company filed a lawsuit with the First Instance Court to object to the decisions passed on by an employee passed on the Tax Department for imposing sales tax on the company amounted to JD 288,000 in addition to Legal Fees JD 576,000 and fees resulted from selling lands and buildings which are related to Phillip Morris and the lawsuit still pending at the tax first instance court in the stage of submitting data.

Based on the tax consultant and company's management the probability of winning the legal case and cancelling the claims is very high.

The Group's subsidiary (Al-Fakher for Trading Tobacco and Agencies Company) filed a lawsuit with the First Instance Court to object on the decisions passed on by the Income Tax Department for imposing income taxes for the years of 2009, 2010 and 2011 with an amount of JD 7,843,927 and Legal compensation amount of JD 3,889,245 and 111,372 for the education support fund, the case is still pending in the tax first instance court in the stage performing expert assessment.

Based on the Company's management and tax consultant the probability of winning the legal case is high because the profit is from the branch and not from the investment, and the company will not have any further liability more than what already paid to the income and sales tax department in Aqaba private zone on addition to tax rate differences.

The company booked an additional contingent liability provision to face any contingent tax and legal liabilities that may arise during the coming period.

24) Other income

Jordanian Dinar	For the year end December 31,	
	2016	2015
Foreign exchange rate and prices	594,787	121,882
Scrap sales	138,880	210,559
Lawsuit provision reversal	480,151	-
Other	45,628	(21,253)
	1,259,446	311,188

25) Advance Payment for Investments

The amount represents entering Spectrum International for Renewable Energy in a joint project agreement as the following:

- Joint project with Altawakol Company and Getsamp Asetym Solar to develop solar power plant with capacity of 24 MW.
- Joint project with Getsamp Asetym Solar to develop solar power plant with capacity of 58 MW.

This joint venture is still under formation and registration.

The company has booked impairment provision with an amount of JOD 950,000 to face the foreign currency differences.

26) Statutory Reserve

The amounts in this account represent what transferred from the annual profit before taxes and fees. By 10% during the year and previous years, according to the Companies Act, and is not available for distribution to shareholders. The Company stopped calculating the statutory reserve at 31% and it is subject to General Assembly approval.

27) Financial risk management

Overview

The Group has exposure to the following risks from its use of financial instruments.

- Credit risk
- Liquidity risk
- Market risk
- Capital management

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The management has overall responsibility for the establishment and oversight of Group's risk management framework.

The Group's risk management policies are established to identify and analyses the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the group's activities. The group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. Group management undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

- Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's Cash at banks and deposits, cheques under collections, trade and other receivables and other debit balances.

The carrying amount of the financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Jordanian Dinar	Carrying value as of	
	2016	2015
Current accounts and deposits at banks	47,911,215	42,993,290
Cheques under collection	28,360	198,063
Trade and other receivables	25,617,883	10,059,518
Other debit balances	2,777,133	1,712,807
	76,334,591	54,963,678

- Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that it has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the Group maintains line of credit from its bank for sudden cash requirements.

The following are the contracted maturities of financial liabilities:

December 31, 2016	Carrying Amount	Contractual Cash Flows	less than a year	More than a year
Deferred cheques -Short Term	358,410	(358,410)	(358,410)	-
Accounts payable	7,163,620	(7,163,620)	(7,163,620)	-
Other credit balances	7,406,230	(7,406,230)	(7,406,230)	-
Income tax provision	5,609,153	(5,609,153)	(5,609,153)	-
Loans and Bank facilities mature within a year	15,930,000	(15,930,000)	(15,930,000)	-
Provision of employees' end of service indemnity	3,880,311	(3,880,311)	-	(3,880,311)
	40,347,724	(40,347,724)	(36,467,413)	(3,880,311)
December 31, 2015	Carrying Amount	Contractual Cash Flows	less than a year	More than a year
Deferred cheques	189,889	(189,889)	(189,889)	-
Accounts payable	5,827,397	(5,827,397)	(5,827,397)	-
Due to related party	173,523	(173,523)	(173,523)	-
Other credit balances	5,938,459	(5,938,459)	(5,938,459)	-
Income tax provision	3,045,480	(3,045,480)	(3,045,480)	-
Loan and bank facilities mature within a year	15,930,000	(15,930,000)	(15,930,000)	-
Provision for end of service indemnity	2,906,197	(2,906,197)	-	(2,906,197)
	34,010,945	(34,010,945)	(31,104,748)	(2,906,197)

- Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rate and equity prices will affect the group's profit or the value of its holdings of financial instruments.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

- Currency Risk

Most of the group's financial assets and liabilities are in Jordanian Dinar and UAE Dirhams

The summary of quantitative data about the Group's exposure to foreign currency risk provided to management of the Group based on its risk management policy was as follows:

December 31, 2016	JOD	UAE Dirhams	Total
Cash on hand and at banks	30,179,957	19,549,478	49,729,435
Cheques under collection	28,360	-	28,360
Trade and other receivables	320,843	25,297,040	25,617,883
Other debit balances	1,392,664	3,103,683	4,496,347
Deferred cheques	-	(358,410)	(358,410)
Accounts payable	(363,105)	(6,800,515)	(7,163,620)
Other credit balances	(2,458,697)	(4,947,533)	(7,406,230)
Income tax provision	(5,609,153)	-	(5,609,153)
Loans and bank facilities mature within a year	(15,930,000)	-	(15,930,000)
	7,560,869	35,843,742	43,404,612

December 31, 2015	JOD	UAE Dirhams	Total
Cash on hand and at banks	30,312,327	14,809,050	45,121,377
Cheques under collection	170,160	27,903	198,063
Trade and other receivables	474,523	9,584,995	10,059,518
Other debit balances	1,430,612	1,817,689	3,248,301
Deferred cheques	(23,902)	(165,987)	(189,889)
Accounts payable	(51,920)	(5,775,477)	(5,827,397)
Income tax provision	(3,045,480)	-	(3,045,480)
Other credit balances	(2,902,841)	(3,035,618)	(5,938,459)
Loans and bank facilities mature within a year	(15,930,000)	-	(15,930,000)
	13,205,683	17,262,555	30,468,238

- Sensitivity analysis

As indicated below, an increase (decrease) of the JD against the UAE Dirhams at 31 December would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecasted sales and purchases. The analysis is performed on the same basis for 2015, albeit that the reasonably possible foreign exchange rate variances were different, as indicated below:

December 31, 2016 Jordanian Dinar	Increase Profit or loss	Decrease Profit or loss
--------------------------------------	----------------------------	----------------------------

UAE dirham (10% change)	3,584,374	(3,584,374)
	3,584,374	(3,584,374)

December 31, 2015 Jordanian Dinar	Increase Profit or loss	Decrease Profit or loss
--------------------------------------	----------------------------	----------------------------

UAE dirham (10% change)	1,726,256	(1,726,256)
	1,726,256	(1,726,256)

- Interest rate risk

At the reporting date of consolidated financial statements the interest rate profile of the Group's interest-bearing financial instruments was as follows:

Jordanian Dinar	As of December 31,	
	2016	2015
Fixed Rate Instruments:		
Financial Assets	28,168,412	26,624,692
Variable rate instrument		
Financial Liabilities	(15,930,000)	(15,930,000)

An increase in the interest average rate by 1% will lead to increase in finance expense with an amount of JD 159,300, a decrease in the interest average rate by 1% will lead to decrease in finance expense with an amount of JD 159,300.

- Other market price risk

Equity price risk arises from financial assets at fair value through other comprehensive income held for meeting partially the unfunded portion of the Group's obligations as well as investments at fair value through profit or loss. Management of the Group monitors the mix of debt and equity securities in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Risk Management Committee.

- Share price risk

A change of 5% in fair value of the securities at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

December 31, 2016 Jordanian Dinar	Equity	
	5% Increase	5% decrease
Financial assets at fair value through other comprehensive income	45,732	(45,732)
	45,732	(45,732)
December 31, 2015		
Financial assets at fair value through other comprehensive income	126,522	(126,522)
	126,522	(126,522)

- Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, retained earnings and interests of the Group.

The management monitors the return on capital, which the management defined as net operation income divided by total shareholders' equity.

The management seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Company increase its paid-up capital by 5,000,000 shares through distribution from retained earnings JD 5,000,000, The Company's paid-up capital become 30 million (1 JD/share) neither the group is subject to externally imposed capital requirements.

Debt-to-adjusted Capital Ratio

Jordanian Dinar	As of December 31,	
	2016	2015
Total Debt	40,347,724	34,010,945
(Less) cash on hand and at banks	(49,729,435)	(45,121,377)
Net Debt	(9,381,711)	(11,110,432)
Net Shareholders' equity	86,634,986	74,223,601
Adjusted capital	86,634,986	74,223,601
Debt - to- adjusted capital ratio	-	-

28) Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: valuation method can be determined either directly (i.e., as prices) or indirectly (i.e., derived from prices). This level includes instruments valued based on:

Prices quoted in active markets for similar instruments or through the use of valuation model that includes inputs that can be traced to markets, these inputs good be defend directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data(unobservable inputs).

- Financial Instruments measured at fair value:

The Company does not measure any financial instruments at fair value.

- Financial Instruments not measured at fair value:

These financial instruments are measured at amortized cost and the fair value of these instruments do not differ significantly from their amortized cost.

December 31, 2016 Jordanian Dinar	Fair Value			
	Book value Fair Value	level (1)	level (2)	level (3)*
Cash on hand and at banks	49,729,435	49,729,435	-	-
Cheques under collection	28,360	-	-	-
Trade and other receivable	25,617,883	-	-	-
Financial assets at fair value through statement of other comprehensive income	914,633	613,608	-	301,025
Deferred cheques	(358,410)	-	-	-
Accounts payable	(7,163,620)	-	-	-
Loans and bank facilities	(15,930,000)	-	-	-
December 31, 2015				
Cash on hand and at banks	45,121,377	45,121,377	-	-
Cheques under collection	198,063	-	-	-
Trade and other receivable	10,059,518	-	-	-
Financial assets at fair value through statement of other comprehensive income	2,530,434	2,229,409	-	301,025
Deferred cheques	(189,889)	-	-	-
Accounts payable	(5,827,397)	-	-	-
Due to related party	(173,523)	-	-	-
Loans and bank facilities	(15,930,000)	-	-	-

Fair value in accordance with 3 level

This item represents the cost of financial assets through other comprehensive income that is not listed in financial markets for the Group portion in North manufacturing Company -Jenin-. The Group performed test over the fair value for this item using Net asset value of the last available audited financial statements, the company's management believes that this is the most convenient way to measure the fair value of the investment due to the lack of updated information on the market value of this investment.

- Fair value

The fair value of financial assets and liabilities are not materially different from its book value in the consolidated statements of financial position. As of December 31, 2016 and 2015.

29) Comparative figures

The comparative figures represents the Consolidated Statement of Financial Position as of December 31, 2015, in addition to the Consolidated Statement of Profit or Loss and Other Comprehensive Income and Consolidated Statement of Changes in Shareholders' Equity and the Consolidated Statement of Cash Flow for the year ended December 31, 2015.

Governance

The Company implements all good governance practices with the exception of one provision relating to unifying the position of General Manager and Chairman of the Board of Directors; the Company will work to avoid such matter in the future.
