REVIEW REPORT ON THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

TO THE CHAIRMAN AND THE BOARD OF DIRECTORS OF UNITED FINANCIAL INVESTMENTS COMPANY
(PUBLIC SHAREHOLDING COMPANY)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of United Financial Investment Company (later on "the company") and its subsidiaries (together "the group") as at 30 June 2022 and the interim condensed consolidated statement of comprehensive income for the three and six months period ended 30 June 2022, and the interim condensed consolidated statements of changes in shareholders' equity and interim condensed consolidated statement of cash flows for the six months period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this interim condensed consolidated financial statements in accordance with International Accounting Standard (34) "interim financial reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial statement based on our review.

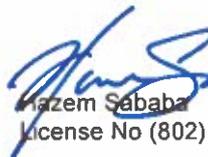

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements (2410) "Review of Interim Financial Information performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements have not been prepared, in all material respects, in accordance with IAS 34 related to interim financial reporting, as amended by the Central Bank of Jordan investments.

The attached notes from 1 to 23 are an integral part of the interim condensed consolidated financial statements

(1) GENERAL INFORMATION

United Company for Financial Investments (the "Company") was established as a public shareholding limited company under No. (297) on October 8, 1995 under the Companies Law.

The Company's capital was JOD 1,500,000, divided into 1,500,000 shares of JOD 1 per share. The Company's capital was increased multiple times to reach 8,000,000 JOD divided into 8,000,000 shares of JOD 1 each.

The Company is listed on Amman Stock Exchange.

The Company is 97.819% owned by Jordan Kuwait Bank. The headquarter is in Amman Shmeisani area - Abdul Aziz Al Thaalbi Street, PO Box 927250 Amman - 11192 - Hashemite Kingdom of Jordan.

The financial statements of United Financial Investments Company are consolidated with the consolidated financial statements of Jordan Kuwait Bank.

The Company's main objectives are to provide administrative and advisory services to investment portfolios and financial services to deal in the local market, to provide agent or financial advisor services, to invest in securities, to provide economic feasibility studies, and to own movable and immovable funds in the interest of the company.

The interim condensed consolidated financial statements were approved by the Board of Directors on 26 July 2022.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Following are the significant accounting policies used by the Company in the preparation of the interim condensed consolidated financial statements.

2.1 Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standards No. (34) ("Interim Financial Reporting") as amended by the Central Bank of Jordan instructions.

The reporting currency of these interim condensed consolidated financial statements is the Jordanian Dinar which is the functional currency of the Company.

The interim condensed consolidated financial statements are prepared under the historical cost convention, except for financial assets at fair value through profit or loss and comprehensive income that have been measured at fair value at the date of the interim condensed consolidated financial statements.

These interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the financial statements of the Company for the year ended 31 December 2021. The results of the six months ended 30 June 2022 do not necessary state the expected results for the year ending 31 December 2022.

The main differences between the IFRSs as they must be applied and what has been approved by the Central Bank of Jordan are the following:

Some items in the statement of financial position and income statement and the detailed explanations are shown and classified, such as credit facilities, suspended interest, expected credit losses, restricted balances, assets acquired against debts, fair value levels, sectoral classification, and clarifications regarding risks and others, in accordance with the requirements and instructions of the Central Bank of Jordan and the indicative forms issued. It may not include all the requirements of IFRSs such as those contained in IFRS No. (7), (9) and (13).

Provisions for expected credit losses are formed in accordance with the instructions of the Central Bank of Jordan (No. 13/ 2018) "Application of the IFRS (9)" dated 6 June 2018 and in accordance with the instructions of the supervisory authorities in the countries in which the bank operates, whichever is stricter. The significant differences are as follows:

(a) Debt instruments issued or guaranteed by the Jordanian government are excluded, so that credit exposures are treated and guaranteed by the Jordanian government without credit losses.

(b) When calculating credit losses against credit exposures as per IFRS 9 instructions, the calculation results are compared with the Central Bank of Jordan instructions No. (47/2009) of 10 December 2009 for each stage separately and the stricter results are taken.

As stated in Central Bank of Jordan (CBJ) instructions for classification of credit facilities and calculating impairment provision No. (47/2009) dated 10 December 2009, the credit facilities are classified into the following categories

a) Low Risk Credit Facilities, no provisions calculated on :

The credit facilities that have any of the following characteristics:

- 1) Granted to and Guaranteed by the Jordanian Government and to the governments of countries in which the Jordanian banks have foreign branches, provided that such facilities are held in the host country's currency.
- 2) 100% collateralized by cash margin (of the any-time outstanding amount).
- 3) 100% guaranteed by an acceptable bank guarantee

b) Acceptable Risk Credit Facilities, no provisions calculated on:

The credit facilities that have the following characteristics:

- 1) Strong financial positions and adequate cash flows.
- 2) Legally documented and well covered by acceptable collaterals.
- 3) Good alternative cash resources for repayment.
- 4) Active movement of the relative account and timely payment of principal and interest.
- 5) Competent management of the obligor.

- c) **Watch-List Credit Facilities (Requiring special attention), impairment provisions are calculated on the below at a rate between 1.5% and 15%**

The credit facilities that have any of the following characteristics:

- 1) The existence of past dues of principal and/or interest for a period exceeding (60) days but less than (90) days.
- 2) Overdraft exceeding the approved limit by (10%) or more for a period exceeding (60) days but less than (90) days.
- 3) Credit facilities which were previously classified as non-performing loans, and then reclassified as performing loans according to rescheduling.
- 4) Acceptable risk credit facilities which have been restructured twice within 12 months
- 5) Credit facilities that are more than (60) days old and less than (90) days have passed since their expiry date and have not been renewed.

The above is in addition to the conditions mentioned in detail in the instructions

- d) **Non-Performing Credit Facilities The credit facilities that have any of the following characteristics:**

- 1) The maturity of the credit facilities or of one of its installments, irregularity of repaying of principal and/or interest of credit facilities and / or dormant overdraft have been past due for the following periods:

Category	Days overdue	Percentage allocated for the first year
Substandard	From (90) days to (179) days	25%
Doubtful	From (180) days to (359) days	50%
Loss	From (360) days or more	100%

- 2) Overdraft facilities exceeding approved limits by (10%) or more for a period of (90) days or more.
- 3) Credit facilities which have matured and become invalid for a period of (90) days or more and have not been renewed.
- 4) Credit facilities extended to any obligor who went bankrupt, or to companies which were subjected to liquidation.
- 5) Credit facilities which have been restructured for three times within 12 months.
- 6) Overdrawn current and on demand accounts for a period of (90) days or more.
- 7) Guarantees claimed by the beneficiary and paid by the bank on behalf of the clients, where their values have not been debited to their accounts and are still unpaid for a period of (90) days or more.

A low provision is calculated on credit facilities according to the instructions of 47/2009 for this category of facilities according to the above rates and the amount of the facilities not covered by acceptable guarantees during the first year, while the provision is completed for the amount covered by 25% over a period of four years.

Interest and commissions are suspended on non-performing credit facilities and facilities classified as third stage granted to clients in accordance with the instructions of the Central Bank of Jordan and in accordance with the instructions of the supervisory authorities in the countries in which the bank operates, whichever is stricter.

Assets that have been reverted to the Bank appear in the consolidated statement of financial position within other assets at the amount of which they were reverted to the Bank or the fair value, whichever is less, and are reassessed on the date of the consolidated financial statements individually. Any impairment in their value is recorded as a loss in the consolidated statement of profit or loss and the increase is not recorded as revenue. The subsequent increase is taken to the consolidated statement of profit or loss to the extent that it does not exceed the value of the previously recorded impairment

2.2 Changes in accounting policy and disclosures

A- New standards issued and not yet applicable or early adopted by the Group for the periods starting on or after 1 January 2022:

Standard	Description	Effective date
A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 17 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16	<ul style="list-style-type: none"> • Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations. • Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss. • Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making. <p>Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.</p>	1 January 2022

UNITED FINANCIAL INVESTMENTS COMPANY
(PUBLIC SHAREHOLDING COMPANY)
NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2022

Standard	Description	Effective date
Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	The amendments to IAS 12 Income Taxes require companies to recognised deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. They will typically apply to transactions such as leases of lessees and decommissioning obligations and will require the recognition of additional deferred tax assets and liabilities.	1 January 2022
Sale or contribution of assets between an investor and its associate or joint venture – Amendments to IFRS 10 and IAS 28	The IASB has made limited scope amendments to IFRS 10 condensed consolidated financial statements and IAS 28 Investments in associates and joint ventures. The amendments clarify the accounting treatment for sales or contribution of assets between an investor and its associates or joint ventures. They confirm that the accounting treatment depends on whether the non- monetary assets sold or contributed to an associate or joint venture constitute a 'business' (as defined in IFRS 3 Business Combinations).	1 January 2022
Amendments to IAS 1, Presentation of financial statements liabilities	These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.	

B) New and amended standards and interpretations issued but not yet effective:

The Group has not early adopted the following new standards, amendments and interpretations that have been issued but are not yet effective:

Standard	Description	Effective date
IFRS 17, 'Insurance contracts'	This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features. Early application is permitted if it coincides with the application of IFRS 15 Revenue from Contracts with Customers and IFRS 9 Financial Instruments.	1 January 2023

IFRS 17 requires an existing measurement model where estimates are re-measured in each reporting period. The measurement is based on a discounted weighted cash flow basis, an adjustment for risk, and a contractual service margin, which represents unearned contract profits. A simplified premium allocation method is permitted for liabilities over the remaining coverage period if this method provides for a measurement method that is not materially different from the general model or if the coverage period extends for a year or less. However, claims incurred must be measured on a risk-adjusted and discounted weighted cash flow basis.

Disclosure of Accounting Policies– Amendments to IAS 1 and IFRS Practice Statement 2 The IASB amended IAS 1 to require entities to disclose their material rather than their significant accounting policies. The amendments define what is 'material accounting policy information' and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information. **1 January 2023**

To support this amendment, the IASB also amended IFRS Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

Definition of Accounting Estimates– Amendments to IAS 8 The amendment to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors clarifies how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period. **1 January 2023**

There are no other standards that are not effective that are expected to have a material impact on the Group in current or future reporting periods, and on expected future transactions.

The management is still in the process of evaluating the impact of these new amendments on the interim condensed consolidated financial statements of the group, and in its belief that there will be no material impact on the interim condensed consolidated financial statements when applied.

(3) CAPITAL RISK MANAGEMENT

3.1 Capital risk factors

The Company is exposed to various financial risks as a result of its operations, and these risks include the impact of fluctuations in the market (foreign exchange risk, interest rate risk, Risks of changing stock prices), liquidity risk, and credit risk. The company's overall risk management focuses on minimizing the potential negative impact on the company's financial results to the lowest level.

3.2 Market risk

Market risk is the loss in value resulting from changes in market prices such as changes in interest rates, foreign exchange rates, stock prices and therefore changes in the fair value of cash flows of financial instruments within and outside the statement of financial position.

A. Foreign exchange risk

Foreign currency risk arises from changes in the prices of financial instruments due to changes in exchange rates.

Most of the company's transactions are in Jordanian Dinars and US Dollars. The fact that the Jordanian Dinar (the Company's functional currency) is linked to the US Dollar, the Company's management believes that the risk of foreign currency is not significant.

B. Interest rate risk

Interest rate risk is the risk associated with changes in the value of a financial instrument as a result of changes in market interest rates

Based on this analysis, the impact of change in interest rate on the year loss is as follows:

Currency	<u>Increase in interest rate</u>	<u>Effect on loss for the year</u>
	%	JD
30 June 2022		
JD	1	(43,146)
31 December 2021		
JD	1	(11,473)

The financial impact of decreases in interest by the same percentages is expected to be equal and opposite to the effect shown above.

C. Risks of changing stock prices

The change in the prices of shares traded in securities as at the date of the financial statements by 5% increase or 5% decrease has the following effect on the results of the company:

	Change in price	30 June 2022 JD (unaudited)	31 December 2021 JD (audited)
Impact on profit and loss	5%	187,476	171,137

In the event of an adverse change in the indicator, the effect is expected to be equal and opposite to the effect shown above.

3.3 Liquidity risk

Liquidity risk, also known as financing risk, is the risk that the Company will face difficulty in providing funds to meet commitments. The Company manages liquidity risk by maintaining adequate levels of liquidity through continuous monitoring of actual and forecast cash flows and matching asset maturities finance with financial liabilities. A portion of the company's funds is invested in short-term deposits with banks.

3.4 Credit risk

Financial assets that are subject to credit risk are limited to cash at banks and receivables and other debit balances. The Company only deals with financial institutions of high credit solvency. The Company has a policy for limiting the value exposed to credit risk at a single financial institution. Utilized credit limits are monitored on a regular basis.

The following table shows the cash at banks and their credit rating as of December 31 and distributed as follows:

	Rating	30 June 2022 JD	31 December 2021 JD
Invest Bank	BB	2,139,902	-
