**Report on review of the interim condensed consolidated financial statements  
To the Chairman and members of the Board of Directors of Offtec Holding Group  
Public Shareholding Company**

**Introduction**

We have reviewed the accompanying interim condensed consolidated statement of financial position of the OFFTEC Holding Group PLC (the "Company") and its subsidiaries (together the "Group") as at 30 June 2023, and the related interim condensed consolidated statements of income, comprehensive income for the three and six months period ended 30 June 2023 and the interim condensed consolidated statements of changes in shareholders' equity and cash flows for the six months period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

**Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410 "Review of interim financial information performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurances that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not properly prepared, in all material respects, in accordance with IAS (34) related to interim financial reporting.

#### **(1) General Information**

OFFTEC Holding Group is a public shareholding company limited and registered in the public shareholding companies registry on 7 December 2004 under No. 355 at the Companies Controller at the Ministry of Industry and Trade.

The Company's authorized and paid-up capital is JD 34,850,000 as at 30 June 2023 and 31 December 2022, divided into 34,850,000 shares with a nominal value of one dinar.

The Company's shares are listed in Amman Stock Exchange.

The Company's capital on 1 January 2022 amounted to JD 39,569,500. The Group's General Assembly decided in its extraordinary meeting held on 19 July 2022 to reduce the Company's capital by the full amount of the accumulated losses balance as of 31 December 2021 amounting to JD 3,705,760, and to reduce the Company's capital by JD 1,013,740 as a surplus to the Group's need and to be returned to the shareholders, so that the Company's capital became 34,850,000 shares, with a nominal value of one Jordanian dinar for each. The legal procedures for the capital reduction have been completed on 27 September 2022.

The Company's objectives are as follows:

- Managing the subsidiaries of the company or participating in the management of other companies in which it owns shares.
- Investing its money in shares, bonds and securities.
- Providing loans, guarantees and financing to its subsidiaries.
- Owning patents, trademarks, concessions and other intangible rights, exploiting them and leasing them to its subsidiaries or others.

The Group's head office is located in Amman - Jabal Amman - Third Circle.

These interim condensed consolidated financial statements were approved by the Board of Directors on 30 July 2023.

#### **(2) Summary of significant accounting policies**

##### **2.1 Basis of preparation of the interim condensed consolidated financial statements**

The accompanying interim condensed consolidated financial information for the six months ended 30 June 2023 in accordance was prepared in accordance with the IAS (34), (Interim financial reports).

The Jordanian Dinar is the presentation currency for the interim condensed consolidated financial statements, which is the Group's functional currency.

The interim condensed consolidated financial statements have been prepared under the historical cost convention.

These interim condensed consolidated financial statements do not include all information and notes required in the annual consolidated financial statements which are prepared in accordance with the IFRS, and should be read along with the Group's annual report as at 31 December 2022. The results for the six months business ended 30 June 2023 are not necessarily indicative of the results that may be expected for the year ending 31 December 2023. No provision was made for the profit of the six month period ended 30 June 2023 which is done at the end of the financial year.

## **2.2 Basis of consolidation of financial statements**

The Group's consolidated financial statements include the financial statements of the Company and the subsidiaries controlled by the Group. Control is achieved when the Group has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The investee is controlled only when the following is achieved:

- The Group's control over the investee (existing rights that grant the Group the ability to direct the related activities of the investee).
- The Group or its rights are exposed to the variable returns arising from its involvement with the investee.
- Ability to exercise control over the investee and influence its returns.

When the Group has less than majority of the voting rights or the similar in the investee, the Group takes all relevant facts and circumstances into account to determine whether it has control over the investee, including:

- Contractual arrangements with the other holders of voting rights in the investee.
- Rights arising from other contractual arrangements.
- Current and potential voting rights of the Group.

The Group reassesses whether it controls the investee if circumstances or facts indicate a change in one or more of the three control elements.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests even if this results in a deficit in the balance of the non-controlling interests. If necessary, the financial statements of subsidiaries are adjusted to confirm their accounting policies with the Group's accounting policies. Assets, liabilities, equity, income, expenses, and transaction gains and losses are eliminated between the Group and its subsidiaries.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

### **Changes in equity**

The Group considers transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the non-controlling and controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve in the Group owners' equity.

When the Group ceases consolidation or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the Company is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in the statement of other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in the statement of other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced while retaining joint control or effective influence, the shares from the amounts previously recognised in the statement of other comprehensive income are reclassified to profit or loss as appropriate.

**OFFTEC HOLDING GROUP PLC****Notes to the interim condensed consolidated financial statements (unaudited)****30 June 2023**

- Discounted probability-weighted cash flows.
- An express amendment of risks
- The contractual service margin (CSM) represents the contract's unearned revenue that is recognized as revenue during the coverage period.

The standard allows a choice between recognizing changes in discount rate either in the statement of profit or loss or directly in the statement of other comprehensive income. The choice probably reflects how insurance companies calculate their financial assets under IFRS 9.

An optional and simplified approach to allocate the liability insurance premium for the remaining coverage is permitted for short-term contracts, which are often written by non-life insurance companies.

There is a modification to the general measuring model called the “variable fee approach” for some contracts written by life insurance companies where the policyholders share in the returns of the key elements. When variable fees are applied, the entity's share of the fair value changes of the key items is included in CSM. Therefore, results for insurance companies using this model are probably to be less volatile than the general model.

The new rules will affect the financial statements and key performance indicators of all entities that issue insurance contracts or investment contracts with the estimated sharing features.

The targeted amendments made in July 2020 aim to facilitate the implementation of the standard by reducing implementation costs and facilitating it for companies to explain the results of applying IFRS 17 to investors and others. The amendments also postponed the application date of IFRS 17 to 1 January 2023.

Additional amendments made in December 2021 added a transitional option allowing an entity to apply an optional rating overlay in the comparative period(s) presented upon initial application of IFRS 17. The rating overlay applies to all financial assets, including those held in respect of non-contract related activities that fall within the scope of IFRS 17. It also allows those assets to be classified in the comparative period(s) in a manner consistent with the Company. These assets expect to be classified on initial application of IFRS 9. The classification can be applied on an instrument-by-instrument basis.

**Disclosure of accounting policies: Amendments to IAS 1:**

1 January 2023

The International Accounting Standards Board has amended IAS 1 to require entities to disclose material accounting policies, but not their significant accounting policies.

It also clarifies that insignificant accounting policy information does not need to be disclosed. If disclosed, it should not affect the significant accounting information. To support this amendment, the IASB also amended Practice Statement No. 2 of IFRSs “Make material judgments to provide guidance on how to apply the concept of materiality to accounting policy disclosures”.

**Definition of accounting estimates – Amendments to IAS 8:**

1 January 2023

The amendment to IAS 8 explains accounting policies, changes in accounting estimates and errors, and how companies shall distinguish between changes in accounting policies and changes in accounting estimates. The distinction shall be considered significant because the changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as to the current period.

**Deferred tax assets and liabilities arising from a single transaction - Amendments to IAS 12**

1 January 2023

The amendments to IAS 12 “Income Taxes” require companies to recognize deferred tax on transactions that, on initial recognition, result in equal amounts of deductible and taxable temporary differences. It will typically apply to transactions such as lessees lease contracts and termination liabilities and will require recognition of additional deferred tax assets and liabilities.

This amendment should be applied to transactions that occur on or after the beginning of the first comparative period presented. In addition, entities should recognize deferred tax assets (to the extent that it is probable that they can be used) and deferred tax liabilities at the beginning of the earliest comparative period for all deductible and taxable temporary differences associated with:

- Right of use assets and lease liabilities,
- Decommissioning, recovery, similar liabilities and corresponding amounts recognized as part of the cost of the related assets.

The cumulative effect of recognizing these amendments is recognized in retained earnings, or in another item of equity, as applicable.

IAS 12 did not previously address how to calculate the tax effects of leases in the statement of financial position and similar transactions, and different methods were considered acceptable. Some companies may have already included such transactions in line with the new requirements. These companies will not be affected by the amendments.

The application of the above standards did not have any significant impact on the interim condensed consolidated financial statements.

**(B) New and amended standards and interpretations issued but are not yet effective and not early adopted:**

The Group did not apply the following new standards, amendments and interpretations which have been issued but are not yet effective to date:

<b>New standards, amendments and interpretations</b>	<b>Effective for annual periods beginning on or after</b>
--	---

<b>Non-current liabilities with covenants- Amendments to the IAS 1- The</b>	<b>1 January 2024</b>
amendments made to IAS 1, "Presentation of Financial Statements" in 2020 clarify that liabilities are classified as either current or non-current liabilities, depending on the rights at the end of the reporting period. The classification is not affected by the Company's expectations or events subsequent to the reporting date (for example, a waiver or breach of covenant). The amendments also clarify any reference to a "settlement" of liability as mentioned in the IAS 1, which was to be applied from 1 January 2022 and then the effective date was subsequently postponed to 1 January 2023, and thereafter to 1 January 2024.	

In October 2022, the International Accounting Standards Board (IASB) made further amendments to IAS 1 in response to concerns raised about these changes in the classification of liabilities as current or non-current.

The new amendments clarify that loan arrangement agreements will not affect the classification of liabilities as current or non-current at the reporting date if the Company shall only comply with covenants after the reporting date. However, the Company shall comply with the covenant either before or on the reporting date, this will affect the classification as current or non-current, even if compliance with the covenant is only tested after the reporting date.

The amendments require disclosures if an entity classifies an liability as a non-current liability. Such liability is subject to the covenants that the entity shall comply with within 12 months of the reporting date. Disclosures include the following:

- The liability carrying value.
- Information about covenants.
- Facts and circumstances, if any, which indicate that the Company may have difficulty complying with the covenants.

The amendments shall be applied retrospectively in accordance with the requirements of IAS 8, "Accounting Policies and Changes in Accounting Estimates and Errors". Special transitional rules apply if the Company has early adopted the 2020 amendments relating to the classification of liabilities as current or non-current.

### Notes to the interim condensed consolidated financial statements (unaudited)

30 June 2023

**Lease liability in sale and leaseback - Amendments to IFRS 16.** In September 1 January 2024 2022, the IASB finalized narrow scope amendments to the sale and leaseback requirements in IFRS 16 "Leases" explaining how a Company accounts for sale and leaseback after the date of the transaction.

The amendments specify that when measuring a subsequent sale and leaseback lease liability, the seller - "lessee" determines "lease payments" and "reviewed lease payments" in a way that does not result in the seller - "lessee" recognizing any amount of profit or loss relating to the right-of-use held. This can particularly affect sale and leaseback transactions where the lease includes variable payments that are not based on an index or rate.

**Sale or contribution of assets between an investor and its partner or joint venture - Amendments to IFRS 10 and IAS 28**

The IASB made a narrow scope amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 Investments in Associates and Joint Ventures.

The amendments describe the accounting treatment of sales or contribution to assets between an investor and its associates or joint ventures. They emphasize that the accounting treatment depends on whether the non-monetary assets sold or contributed to a associate or joint venture constitute a "Business Activity" (as defined in IFRS 3 "Business Combination").

When non-monetary assets constitute a business, the investor will recognize the entire profit or loss from the sale or contribution of the assets. If the assets do not meet the definition of a business, the investor recognizes the profit or loss only to the extent of the other investor's interest in the associate or joint venture. Amendments apply prospectively.

\*\*\* In December 2015, the IASB decided to postpone the date of implementation of the amendment until the IASB completes its research project on the equity method.

Management is still in the process of evaluating the impact of these new amendments on the condensed interim financial statements, and it believes that there will be no material impact on the consolidated financial statements when they are applied.

There are no other relevant IFRS standards, amendments to the published standards, or IFRS Interpretation Committee's interpretations that have been issued but did not come into effect for the first time for the Company's financial year that began on 1 January 2023 and was expected to have significant effect on the Company's interim condensed consolidated financial statements.

### **(3) Critical accounting estimates and judgments**

The preparation of the interim condensed consolidated financial statements and the application of accounting policies require the Group's management to make estimates and judgments that affect the amounts of financial assets and liabilities, and to disclose contingent liabilities. Also, these estimates and judgments affect revenues, expenses and provisions, and in particular, the Group's management must issue important judgments and judgments to estimate the amounts and timing of future cash flows. The aforementioned estimates are necessarily based on multiple assumptions and factors with varying degrees of estimation and uncertainty, and the actual results may differ from the estimates as a result of changes resulting from the conditions and circumstances of those estimates in the future.

In order to prepare these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the main sources of uncertainty estimates were the same judgments and sources applied in the Group's audited consolidated financial statements for the year ended 31 December 2022.

**(10) Reverse acquisition reserve**

As required by IFRS 3, the equity structure of the Group's consolidated financial statements (number and type of equity interests issued) should reflect the equity structure of Offtec Holding (listed in Amman Stock Exchange). Therefore, the difference between the equity of the Company and the net assets of the Jordan Scientific Library Company was recognized as a separate reserve in equity (reverse acquisition reserve amounting to JD 18,627,185) instead of deduction from the paid-up capital, in order to comply with the legal requirements for capital in the Hashemite Kingdom of Jordan.

**(11) Statutory reserve**

According to the Jordanian Companies Law and the Company's by-laws, the Company should transfer 10% of its annual net profit to the statutory reserve, and continue to do so each year provided that the total transferred amounts to the reserve do not exceed 25% of the Company's capital. For the purposes of this law, net profits represent profits before the income tax and fees provision. This reserve is not distributable to shareholders. No statutory reserve is deducted during the period ended 30 June 2023, as the deduction is made at the end of the year.

**OFFTEC HOLDING GROUP PLC****Notes to the interim condensed consolidated financial statements (unaudited)****30 June 2023****(12) Dividends distribution**

**(14) Segment Reporting**

The business sector represents a Group of assets and operations that jointly provide products or services subject to risks and returns that are different from those related to other business sectors and that are measured according to the reports that are used by the CEO and primary decision maker at the Group.

A geographical segment is associated with the provision of products or services in a particular economic environment that is subject to risks and rewards different from those related to segments operating in economic environments.
